Invesco Reports Results for the Three Months Ended June 30, 2018

Operating margin of 24.3%; adjusted operating margin of 38.7%

Diluted EPS \$0.59; adjusted diluted EPS \$0.66

Expanded presence in digital solutions market with acquisition of Intelliflo

Atlanta, July 26, 2018 --- Invesco Ltd. (NYSE: IVZ) today reported financial results for the three months ended June 30, 2018.

“We continue to invest in key growth drivers that we are highly confident will further strengthen the competitive advantages of our business,” said Martin L. Flanagan, president and CEO of Invesco. “During the quarter, we completed the acquisition of Guggenheim Investments’ ETF business as well as the acquisition of Intelliflo, the No. 1 technology platform for financial advisors in the UK.⁽¹⁾ These strategic additions will enhance our ability to respond to evolving competitive dynamics and deliver outcomes that help our clients achieve their investment objectives.”

Assets Under Management

Total assets under management (AUM) at June 30, 2018, were \$963.3 billion (March 31, 2018: \$934.2 billion), an increase of \$29.1 billion during the second quarter. Long-term net outflows were \$8.0 billion and total net outflows were \$6.2 billion for the second quarter. The acquisition of the Guggenheim Investments' ETF business on April 6, 2018 added \$38.1 billion in AUM during the quarter.

Summary of net flows (in billions)	Q2-18	Q1-18	Q2-17
Active	(\$8.4)	(\$1.5)	(\$0.2)
Passive	0.4	1.8	0.5
Long-term net flows ⁽¹⁾	(8.0)	0.3	0.3
Non-management fee earning AUM	0.9	(0.4)	(0.7)
Institutional money market	0.9	0.4	2.8
Total net flows	(\$6.2)	\$0.3	\$2.4
Annualized long-term organic growth rate ⁽²⁾	(4.1%)	0.2%	0.2%

- (1) In 2018, reinvested distributions are shown in a separate line in the AUM tables. In periods prior to the third quarter of 2017, reinvested distributions were included in market gains and losses.
- (2) Annualized long-term organic growth rate is calculated using long-term net flows (annualized) divided by opening long-term AUM for the period. Long-term AUM excludes institutional money market and non-management fee earning AUM.

Net market gains led to increases of \$10.3 billion in AUM during the second quarter, compared to net market losses of \$12.2 billion in the first quarter. Reinvested distributions for the second quarter were \$0.7 billion compared to \$0.6 billion for the first quarter. Foreign exchange rate movements led to a \$13.8 billion decrease in AUM during the second quarter, compared to a \$7.9 billion increase in the first quarter. Average AUM during the second quarter were \$973.9 billion, compared to \$951.3 billion for the first quarter, an increase of 2.4%. Further analysis is included in the supplementary schedules to this release.

Operating Results

This section discusses the company's second quarter 2018 results, as compared to the first quarter 2018, and comments on significant items that have impacted the company's results as presented in accordance with U.S. GAAP.

The second quarter of 2018 includes the impact of our acquisition of the Guggenheim Investments' ETF business, which was completed on April 6, 2018. The company also acquired Intelliflo on June 4, 2018, and its results are included from that date. The addition of Intelliflo builds on the 2016 acquisition of Jemstep to deliver a global, advisor-focused digital platform that enhances the firm's ability to meet evolving client needs.

Operating revenues increased by \$4.8 million (0.4%) to \$1,360.6 million in the second quarter, from \$1,355.8 million in the first quarter. Foreign exchange rate changes decreased second quarter operating revenues by \$12.5 million compared to the first quarter.

Investment management fees increased by \$6.8 million (0.7%) to \$1,050.5 million in the second quarter from \$1,043.7 million in the first quarter. The increase reflects higher average AUM due to the Guggenheim acquisition as well as one additional day during the second quarter, offset by the impact of foreign exchange. Foreign exchange rate changes decreased second quarter investment management fees by \$11.9 million compared to the first quarter.

Service and distribution fees decreased by \$3.2 million (1.3%) to \$242.9 million in the second quarter from \$246.1 million in the first quarter, reflecting a decrease in the retail AUM that earn these fees.

Performance fees increased by \$2.5 million compared to the first quarter. Performance fees recorded in the second quarter were primarily generated by our real estate, U.K. equity, and private equity teams.

Other revenues decreased by \$1.3 million (2.3%) to \$55.6 million in the second quarter from \$56.9 million in the first quarter, from decreased front-end and UIT fees, partially offset by increased real estate transaction fees.

Operating expenses decreased by \$5.4 million (0.5%) to \$1,029.3 million in the second quarter from \$1,034.7 million in the first quarter. Business optimization charges were \$6.0 million in the second quarter, compared to \$8.2 million in the first quarter. Total costs of these initiatives at completion are estimated to be up to \$156 million, of which approximately \$20 million remains to be incurred through 2018, including an ongoing large-scale outsourcing project. As of the end of the second quarter, these initiatives have produced annualized run-rate expense savings of \$52 million, and by completion in 2018, the annualized run-rate savings is expected to be up to \$65 million. Foreign exchange rate changes decreased second quarter operating expenses by \$6.8 million when compared to the first quarter.

Third-party distribution, service and advisory expenses decreased by \$10.2 million (2.4%) to \$408.9 million in the second quarter from \$419.1 million in the first quarter, in line with decreased service and distribution and other revenues. The decrease is partially offset by increased fund costs related to the Guggenheim Investments' ETF acquisition. Foreign exchange rate changes decreased second quarter third-party distribution, service and advisory expenses by \$1.3 million when compared to the first quarter.

Employee compensation expenses decreased by \$9.3 million (2.4%) to \$381.1 million in the second quarter from \$390.4 million in the first quarter. The decrease in the second quarter reflects the seasonal increase in payroll tax and employee benefit costs in the first quarter. Additionally, in the second quarter, staff severance costs related to business optimization were down \$4.3 million compared to the first quarter. Foreign exchange rate changes decreased second quarter employee compensation expenses by \$3.4 million when compared to the first quarter.

Marketing expenses increased by \$4.7 million (16.7%) to \$32.8 million in the second quarter from \$28.1 million in the first quarter, reflecting a seasonal increase in marketing activities as well as costs related to our move to a unified global brand.

Property, office and technology expenses decreased \$0.5 million (0.5%) compared to the first quarter.

General and administrative expenses increased by \$9.9 million (10.4%) to \$104.8 million in the second quarter from \$94.9 million in the first quarter due to \$6.6 million in increased consulting and professional services costs related to acquisitions and business optimization, as well as \$3.7 million in increased fund launch costs. Foreign exchange rate changes decreased second quarter general and administrative expenses by \$0.9 million when compared to the first quarter.

Equity in earnings of unconsolidated affiliates decreased \$2.4 million to \$7.3 million (24.7%) in the second quarter from \$9.7 million in the first quarter primarily from decreases in earnings from our real estate investments. Interest expense increased \$6.3 million in the second quarter as compared to the first quarter, resulting from increased borrowing on the credit facility. Non-operating other income and expenses in the second quarter also included a \$0.9 million net gain comprised of market-driven gains and losses of investments held by consolidated investment products (CIP) and net interest income of CIP (first quarter: \$27.2 million gain).

Other gains and losses, net was a gain in the second quarter of \$1.4 million compared to a loss of \$5.4 million in the first quarter primarily due to market valuation gains in deferred compensation plan investments.

The effective tax rate increased to 23.0% for the second quarter, from 20.5% for the first quarter. The impact of the inclusion of non-controlling interests in CIP increased our effective tax rate by 0.4% for the second quarter,

compared to a decrease of 0.7% for the first quarter. The remaining rate increase for second quarter 2018 resulted from changes in our profit mix.

Capital Management

As of June 30, 2018, the company's cash and cash equivalents were \$1,480.5 million, with long-term debt of \$2,955.8 million. The credit facility balance was \$878.9 million at June 30, 2018 and zero at March 31, 2018.

As previously announced, the company completed its acquisition of the Guggenheim Investments' ETF business on April 6, 2018, for a purchase price of \$1.2 billion. To fund the purchase, the company borrowed approximately \$835 million on its credit facility in early April 2018. In addition, the company also borrowed on the credit facility to fund part of the Intelliflo acquisition, which took place on June 4, 2018. The company plans to repay a significant portion of amounts borrowed over the course of 2018, returning leverage ratios at or near pre-acquisition levels, through the curtailment of open market share repurchases. As such, the company has not repurchased common shares in the open market to date in 2018.

Dividends paid in the second quarter were \$124.4 million. Today, the company is announcing a second quarter cash dividend of 30.0 cents. The dividend is payable on September 4, 2018, to shareholders of record at the close of business on August 16, 2018, with an ex-dividend date of August 15, 2018.

Headcount

As of June 30, 2018, the company had 7,315 employees, compared to 7,134 employees as of March 31, 2018, which reflects the increases from the Intelliflo and Guggenheim ETF acquisitions.

Invesco Ltd.
Non-GAAP Information and Reconciliations

We utilize the following non-GAAP performance measures: net revenues (and by calculation, net revenue yield on AUM), adjusted operating income, adjusted operating margin, adjusted net income attributable to Invesco Ltd., and adjusted diluted EPS. We believe the adjusted measures provide valuable insight into our ongoing operational performance and assist in comparisons to our competitors. These measures also assist management with the establishment of operational budgets and forecasts and assist the Board of Directors and management in determining incentive compensation decisions. The most directly comparable U.S. GAAP measures are operating revenues (and by calculation, gross revenue yield on AUM), operating income, operating margin, net income attributable to Invesco Ltd., and diluted EPS.

The following are reconciliations of operating revenues, operating income (and by calculation, operating margin), and net income attributable to Invesco Ltd. (and by calculation, diluted EPS) on a U.S. GAAP basis to a non-GAAP basis of net revenues, adjusted operating income (and by calculation, adjusted operating margin), and adjusted net income attributable to Invesco Ltd. (and by calculation, adjusted diluted EPS). In addition, a reconciliation of adjusted operating expenses is provided below, together with reconciliations of the U.S. GAAP operating expense lines to provide further analysis of the non-GAAP adjustments. These non-GAAP measures should not be considered as substitutes for any U.S. GAAP measures and may not be comparable to other similarly titled measures of other companies. The tax effect of the reconciling items is based on the tax jurisdiction attributable to the transactions. These measures are described more fully in the company's Forms 10-K and 10-Q. Refer to these public filings for additional information about the company's non-GAAP performance measures.

Adjusted diluted EPS ⁽⁴⁾	\$0.66	\$0.67	\$0.64

(1) Operating margin is equal to operating income divided by operating revenues.

(2) Adjusted operating margin is equal to adjusted operating income divided by net revenues.

(3) The effective tax rate on adjusted net income attributable to Invesco Ltd. is 20.6% (first quarter: 20.6%; second quarter 2017: 26.7%). 2018 includes a 6.1% tax rate reduction as a result of lower Federal tax rates effective January 1, 2018.

(4) Adjusted diluted EPS is equal to adjusted net income attributable to Invesco Ltd. divided by the weighted average number of common and restricted shares outstanding. There is no difference between the calculated earnings per share amounts presented above and the calculated earnings per share amounts under the two class method.

Footnotes to the Assets Under Management Tables

- (a) In 2018, reinvested distributions are shown in a separate line in the AUM tables. In periods prior to the third quarter of 2017, reinvested distributions were included in market gains and losses.
- (b) Non-management fee earning AUM includes Invesco QQQ, UIT and product leverage.
- (c) Gross revenue yield on AUM is equal to annualized total operating revenues divided by average AUM, excluding China joint venture (JV) AUM. For quarterly AUM, our share of the average AUM in the three and six months ended June 30, 2018 for our JVs in China was \$8.8 billion and \$9.3 billion, respectively (March 31, 2018: \$9.8 billion, three and six months ended June 30, 2017: \$8.1 billion and \$8.2 billion, respectively). It is appropriate to exclude the average AUM of our China JVs for purposes of computing gross revenue yield on AUM, because the revenues resulting from these AUM are not presented in our operating revenues. Under U.S. GAAP, our share of the net income of the JVs is recorded as equity in earnings of unconsolidated affiliates on our Condensed Consolidated Statements of Income. Gross revenue yield, the most comparable U.S. GAAP-based measure to net revenue yield, is not considered a meaningful effective fee rate measure. The numerator of the gross revenue yield measure, operating revenues, excludes the management fees earned from CIP; however, the denominator of the measure includes the AUM of these investment products. Therefore, the gross revenue yield measure is not considered representative of the company's true effective fee rate from AUM.
- (d) Net revenue yield on AUM is equal to annualized net revenues divided by average AUM. See the reconciliations of U.S. GAAP to Non-GAAP Information on pages 8 through 10 of this release for a reconciliation of operating revenues to net revenues.
- (e) The alternatives asset class includes absolute return, commodities, currencies, financial structures, global macro, long/short equity, managed futures, multi-alternatives, private capital - direct, private capital - fund of funds, private direct real estate, public real estate securities, senior secured loans and custom solutions.
- (f) Long-term AUM excludes institutional money market and non-management fee earning AUM. Ending AUM as of June 30, 2018 includes \$74.9 billion in institutional money market AUM and \$93.0 billion in non-management fee earning AUM. (March 31, 2018: \$74.5 billion and \$88.1 billion, respectively; June 30, 2017: \$71.7 billion and \$78.6 billion, respectively).
- (g) Passive AUM include index-based ETFs, unit investment trusts (UITs), non-fee earning leverage, foreign exchange overlays and other passive mandates. Active AUM is total AUM less Passive AUM.
- (h) During the second quarter of 2018, \$1.5 billion of passive ETF AUM were reclassified to active AUM. During the first quarter of 2018, \$29.5 billion of AUM were transferred from retail into institutional to better reflect the activities of institutional sales teams and the clients they support.
- (i) The acquisition of Guggenheim Investments' ETF business on April 6, 2018 added \$38.1 billion in AUM during the quarter.

Invesco Ltd.

Note: Excludes passive products, closed-end funds, private equity limited partnerships, non-discretionary funds, unit investment trusts, fund of funds with component funds managed by Invesco, stable value building block funds and CDOs. Certain funds and products were excluded from the analysis because of limited benchmark or peer group data. Had these been available, results may have been different. These results are preliminary and subject to revision. AUM measured in the one, three, and five year quartile rankings represents 53%, 53%, and 49% of total Invesco AUM, respectively, and AUM measured versus benchmark on a one, three, and five year basis represents 65%, 63%, and 58% of total Invesco AUM as of 6/30/18. Peer group rankings are sourced from a widely-used third party ranking agency in each fund's market (Lipper, Morningstar, IA, Russell, Mercer, eVestment Alliance, SITCA, Value Research) and asset-weighted in USD. Rankings are as of prior quarter-end for most institutional products and prior month-end for Australian retail funds due to their late release by third parties. Rankings are calculated against all funds in each peer group. Rankings for the primary share class of the most representative fund in each composite are applied to all products within each composite. Performance assumes the reinvestment of dividends. Past performance is not indicative of future results and may not reflect an investor's experience.

(1) These tables include non-GAAP presentations. Cash held by CIP is not available for use by Invesco. Additionally, there is no recourse to Invesco for CIP debt. The cash flows of CIP do not form part of the company's cash flow management processes, nor do they form part of the company's significant liquidity evaluations and decisions. Policyholder assets and liabilities are equal and offsetting and have no impact on Invesco's shareholder's equity. The impact of cash inflows/outflows from policyholder assets and liabilities are reflected within cash flows from operating activities as changes in receivable and/or payables, as applicable.

(2) Amounts include accounts receivable, prepaid assets, property, equipment and software and other assets.

(3) Amounts include accrued compensation and benefits, accounts payable and accrued expenses and deferred tax liabilities.

(4) Amounts include redeemable noncontrolling interests in consolidated entities and equity attributable to nonredeemable noncontrolling interests in consolidated entities.
