

PRFZ PowerShares FTSE RAFI US 1500 
Small-Mid Portfolio

As of Dec. 31, 2017

Fund Description

The PowerShares FTSE RAFI US 1500 Small-Mid Portfolio is based on the FTSE RAFI US 1500 Mid Small Index. The Fund will normally invest at least 90% of its total assets in common stocks that comprise the Index. The Index is designed to track the performance of the equity securities of small and medium capitalization US companies. Companies in the index are selected based on the following four fundamental measures of size: book value, cash flow, sales and dividends. Each of the equities with a fundamental size ranking of 1,001 to 2,500 in the universe of 3,000 is then selected and assigned a weight equal to its fundamental value. The Portfolio and the Index are reconstituted annually.

Returns less than one year are cumulative. Performance data quoted represents past performance. Past performance is not a guarantee of future results; current performance may be higher or lower than performance quoted. Investment returns and principal value will fluctuate and Shares, when redeemed, may be worth more or less than their original cost. See powershares.com to find the most recent month-end performance numbers. Market returns are based on the midpoint of the bid/ask spread at 4 p.m. ET and do not represent the returns an investor would receive if shares were traded at other times. Fund performance reflects fee waivers, absent which, performance data quoted would have been lower.

10-Year Index Statistics

	Alpha	Beta	Correlation	Sharpe Ratio	Volatility (%)
FTSE RAFI US 1500 Mid Small Index	-	-	-	0.48	21.90
Russell 2000 Index	1.55	1.07	0.97	0.42	19.90

Alpha, beta and correlation are that of the underlying index.

 **A Smart Beta Portfolio**

Fund Inception: Sept. 20, 2006

Index returns do not represent Fund returns. An investor cannot invest directly in an index.

Neither the underlying Index nor the benchmark indexes charge management fees or brokerage expenses, and no such fees or expenses were deducted from the performance shown; nor do any of

the indexes lend securities, and no revenues from securities lending were added to the performance shown. In addition, the results actual investors might have achieved would have differed from those shown because of differences in the timing, amounts of their investments, and fees and expenses associated with an investment in the Fund.

The Russell 2000® Index is an unmanaged index considered representative of small-cap stocks. The Russell 2000 Index is a trademark/service mark of the

Frank Russell Co. Russell® is a trademark of the Frank Russell Co.

Shares are not FDIC insured, may lose value and have no bank guarantee.

Shares are not individually redeemable and owners of the Shares may acquire those Shares from the Fund and tender those Shares for redemption to the Fund in Creation Unit aggregations only, typically consisting of 50,000 Shares.

About risk

There are risks involved with investing in ETFs, including possible loss of money. Shares are not actively managed and are subject to risks similar to those of stocks, including those regarding short selling and margin maintenance requirements. Ordinary brokerage commissions apply. The Fund's return may not match the return of the Underlying Index. The Fund is subject to certain other risks. Please see the current prospectus for more information regarding the risk associated with an investment in the Fund.

Stocks of small and mid-sized companies tend to be more vulnerable to adverse developments, may be more volatile, and may be illiquid or restricted as to resale.

Investments focused in a particular industry or sector are subject to greater risk, and are more greatly impacted by market volatility, than more diversified investments.

The **Intraday NAV** is a symbol representing estimated fair value based on the most recent intraday price of underlying assets. **Volatility** is the annualized standard deviation of index returns. **Sharpe Ratio** is a risk-adjusted measure calculated using standard deviation and excess return to determine reward per unit of risk. A higher Sharpe Ratio indicates better risk-adjusted performance. **Correlation** indicates the degree to which two investments have historically moved in the same direction and magnitude. **Alpha** is a measure of performance on a risk-adjusted basis. **Weighted Harmonic Average Stock Price-to-Earnings Ratio (P/E Ratio)** is the share price divided by earnings per share. It is measured on a 12-month trailing basis. **Weighted Harmonic Average Stock Price-to-Book-Value Ratio**

(**P/B Ratio**) is the ratio of a stock's market price to a company's net asset value. **Weighted Harmonic Average** is a method of calculating an average value that lessens the impact of large outliers and increases the impact of small ones. **Weighted Average Return on Equity** is net income divided by net worth. **Weighted Market Capitalization** is the sum of each underlying securities' market value. The **30-Day SEC Yield** is based on a 30-day period and is computed by dividing the net investment income per share earned during the period by the maximum offering price per share on the last day of the period. The **30-Day SEC Unsubsidized Yield** reflects the 30-day yield if the investment adviser were not waiving all or part of its fee or reimbursing the fund for part of its expenses. Total return would have also been lower in the absence of these temporary reimbursements or waivers. **Beta** is a measure of risk representing how a security is expected to respond to general market movements. **Smart Beta** represents an alternative and selection index based methodology that seeks to outperform a benchmark or reduce portfolio risk, or both. Smart beta funds may underperform cap-weighted benchmarks and increase portfolio risk.

Typically, security classifications used in calculating allocation tables are as of the last trading day of the previous month.

The Global Industry Classification Standard was developed by and is the exclusive property and a service mark of MSCI, Inc. and Standard & Poor's.

Shares of the Fund are not in any way sponsored, endorsed, sold or promoted by FTSE International Limited ("FTSE"), or by the London Stock Exchange Plc ("Exchange"), or by The Financial Times Limited ("FT") or by Research Affiliates LLC ("RA"), and

neither FTSE nor Exchange nor FT nor RA makes any warranty or representation whatsoever, expressly or implicitly, as to the results to be obtained from the use of the FTSE RAFI US Mid Small 1500 Index ("Index") and/or the figure at which the said Index stands at any particular time on any particular day or otherwise. The Index is compiled and calculated by FTSE in conjunction with RA; however, neither FTSE nor Exchange nor FT nor RA shall be liable (whether in negligence or otherwise) to any person for any error in the Index, and neither FTSE nor the Exchange nor FT nor RA shall be under any obligation to advise any person of any error therein.
