Our credit team has developed and strictly adheres to a rigorous set of criteria for evaluating credit exposure by country and identifying high-quality securities. The current macroeconomic environment requires an in-depth understanding of global economic and business fundamentals. Our Short-Term Money Market Funds, which include these securities, are structured to preserve principal and liquidity as our primary focus, while seeking to deliver a competitive yield. This discipline, knowledge, and consistency are the foundation for Invesco Global Liquidity's long-term approach to short-term investing.
