

## Product Disclosure Statement

# Invesco Global Enhanced Equity Fund – Class A

ARSN 696 904 579 APIR GTU1694AU

Issued 9 June 2026

### Additional Information to the Product Disclosure Statements

This PDS contains a summary of significant information relating to the Fund and contains a number of references to other important information (as indicated by ⓘ) which is contained in the Additional Information to the Product Statements document that forms part of this PDS. This Additional Information to the Product Disclosure Statements is available on our website at [www.invesco.com/au](http://www.invesco.com/au) or can be obtained free of charge by contacting us. **You should consider that additional information in conjunction with this PDS before making a decision in relation to the Fund.** This PDS contains general information only and does not take account of your personal financial situation or needs. You should obtain financial advice tailored to your personal circumstances before making a decision.

### Target Market Determination

The target market determination for the Fund is available on our website at [www.invesco.com/au](http://www.invesco.com/au) or can be obtained free of charge by contacting us. The target market determination is prepared under Part 7.8A of the Corporations Act and, among other things, describes the type of investor that comprises the target market for the Fund. The target market determination should be read carefully by regulated persons that engage, or intend to engage, in retail product distribution conduct in respect of the Fund. Potential investors may wish to refer to the target market determination to assist in deciding whether to apply for, or acquire, an interest in the Fund.

### Updated Information

The information contained in the Fund's PDS can change from time to time. Where the changes are not materially adverse to you, the updated information may be published on our website at [www.invesco.com/au](http://www.invesco.com/au). To find out about any updated information not contained in this PDS, please contact your IDPS operator, (for indirect investors), your financial adviser or by contacting us. A paper copy of any updated information will be sent to you free of charge on request.

# 1. About Invesco Australia

Invesco Australia is the Responsible Entity of the Fund and as such is responsible for managing the investments of the Fund and overseeing its operational functions.

Invesco Ltd. is one of the world's leading specialist investment managers. The firm has funds under management of more than US\$2.2 trillion globally (as at 31 December 2025) and operates in over 20 countries. Invesco is listed on the New York Stock Exchange under the symbol 'IVZ'.

Invesco Ltd. has more than 7,400 employees who help retail and institutional investors in more than 120 countries access a broad array of specialised investment solutions – ranging from major equity, fixed income, and property assets to alternative assets such as direct real estate, bank loans, multi strategy, private equity and commodities. These capabilities are delivered through numerous investment centres worldwide designed around distinctive asset classes, styles or regional expertise.

In Australia, Invesco has been managing and/or distributing investment portfolios for more than 20 years. Headquartered in Melbourne, our investment capabilities include Australian equities; fixed income; global equities and alternatives.

As the Responsible Entity of the Fund in charge of its overall operation and management, we are guided by the investment objective and strategy we have set for the Fund, by its governing constitution, and by our duties under the Corporations Act.

## 2. How the Invesco Wholesale Global Enhanced Equity Fund – Class A works

The Fund is a type of investment known as a 'managed fund'. A managed fund pools the money of a number of individual investors to acquire the Fund's underlying assets.

When you invest in a managed fund, your interests are in the form of 'units' based on the amount you invest. Unit prices are generally declared for each Melbourne Business Day ('Business Day') and are calculated based on the current value of the Fund and the number of units on issue.

The value of your investment generally changes each Business Day according to the unit price, which will rise and fall depending on the market value of the Fund's assets.

The Fund is a managed investment scheme, structured as a unit trust and registered under the Corporations Act.

Indirect investors do not acquire the rights of a direct unitholder of the Fund. Unitholder rights are acquired by the operator of the IDPS.

### Minimum Initial Investment

A minimum initial investment amount of \$20,000 is required. We may in certain circumstances, reject an application in whole or part, in our discretion.

### Additional Investments

The minimum additional investment amount is \$500.

Additional units can be applied for through one of the following methods:

- Transacting on your MUFG Investor Centre account;
- BPAY® (® Registered to BPAY Pty Ltd ABN 69 079 137 518);
- Sending written instruction and making a payment; or

You do not need to complete another application form.

You should read the important additional information about IDPS investors as well as minimum initial and additional investments for the Fund before making a decision to invest. Go to Section 1 of the 'Additional Information to the Product Disclosure Statements', available at [www.invesco.com/au](http://www.invesco.com/au). The material relating to IDPS investors as well as 'Minimum initial and additional investments' may change between the time you read this PDS and the day when you acquire the product.

### Making a Withdrawal

If you wish to make a withdrawal you can withdraw units through your [MUFG Investor Centre](#) account (for accounts with aggregate balance less than one million dollars) or by sending us a written instruction (including fax instructions) detailing your client details and the amount (in units or in dollars). Withdrawal proceeds will be made by electronic payment into your nominated Australian bank, building society or credit union account. If funds are to be deposited into a bank account, other than the nominated bank account associated to your account with us, an original signed instruction must be received. We will not pay withdrawal proceeds to third parties.

Withdrawals will generally be paid within 10 Business Days.

A minimum account balance of \$20,000 (or such other amount as we may determine from time to time) must be maintained. We may close your account and pay out the proceeds (after providing you with 30 days' written notice) if your balance falls below this minimum.

### Restrictions on Withdrawals

We can, at our discretion, stagger and/or suspend withdrawals from the Fund. For example, where we are unable to realise sufficient assets due to circumstances out of our control such as restricted or suspended trading in the market for an asset.

If we:

- Stagger withdrawals, the exit price will be that applicable for the day the units are actually withdrawn; or
- Suspend withdrawals, the unit price applicable will be the exit unit price applicable for the first Business Day after the period of suspension ends.

If the Fund is not liquid (as that term is defined in the Corporations Act) investors may only withdraw units if Invesco has made a withdrawal offer to investors under the terms of the Corporations Act. It is expected that the Fund will continue to be liquid at all times.

### Calculation of Unit Prices

Unit prices are calculated by dividing the value of the Fund's assets minus any liabilities such as fees and expenses incurred but unpaid by the total number of units on issue.

Because there is a cost associated with buying and selling the underlying assets of the Fund when you make an application or withdrawal, a buy-sell spread is incorporated into the unit price. This means that each Business Day both entry and exit unit prices are calculated. Applications are processed at the entry price and withdrawals are processed at the exit price.

### Timing of Transactions

If we accept your valid instruction before the 2.30 pm AEST cut-off time on a Business Day\*, units will generally be issued (or withdrawn) at the entry (or exit) unit price applicable for that day. If we accept your valid instruction at or after the cut-off time, or on a day that is not a Business Day, units will generally be issued (or withdrawn) at the applicable entry (or exit) price for the following Business Day.

Invalid or incomplete application or withdrawal requests will be processed on the day that all complete information is correctly received, subject to meeting the above cut off time.

For additional investments paid via BPAY, we will not issue units until the money is cleared. This generally means there will be some delay between the time when you make the BPAY transaction from your nominated financial institution and the day the units are issued.

*\*The cut off time on a Business Day before a Melbourne public holiday is 11.00am AEST.*

## Distributions

The Fund may distribute income half yearly for the periods ending 30 June and 31 December and at other times as determined by us.

Distributions are typically paid within 10 Business Days after the distribution period end date but may take longer at the end of the financial year. In the event that the Fund's realised losses and other expenses exceed its income in a distribution period, the Fund may not distribute income for that period.

You can elect to have your distribution reinvested in additional units at the reinvestment price effective the next Business Day after the distribution period, or paid into your nominated Australian bank, building society or credit union account. There is no buy-sell spread on distributions that are reinvested.

If you do not make a choice your distributions will be automatically reinvested.

Distributions will be credited to your nominated financial institution account. If we have not been able to successfully make payment into your nominated account and are unable to contact you, we may reinvest your distribution in the form of additional units at the prevailing unit price applicable.

We will not make distribution payments to third parties.

Distributions are generally calculated based on the net income of the Fund for the distribution period divided by the number of units on issue at the end of the period. A distribution payment may also include any realised capital gains.

We may vary the frequency of distributions from time to time, and we may make a distribution from the Fund on any Business Day.

We may also determine that a withdrawal includes a distribution component. If this occurs, we will advise the amount within 60 days after the end of the financial year in which the withdrawal occurs.

Invesco and other members of the Invesco Ltd group of companies do not guarantee the declaration and amount of any distribution.

## 3. Benefits of Investing in the Invesco Global Enhanced Equity Fund – Class A

The Fund offers a range of features and benefits:

- Access to a specialist global investment manager with significant resources and expertise whose only business is to manage investments on behalf of its investors;
- A focus toward long term capital growth;
- Exposure to a diversified portfolio of global shares; and
- The ability to regularly access your funds (typically daily).

Invesco also provides a number of features to help you better manage and track your investment:

- Website updates;
- View account information online; and
- Regular reports.
- The ability to apply for additional units or withdraw your units online;
- The ability to amend your personal details online; and
- The ability to switch to other Invesco funds, transfer your holdings to another investor and appoint an authorised representative.

You should read the important additional information about the features and benefits of investing in the Fund before making a decision. Go to Section 2 of the 'Additional Information to the Product Disclosure Statements', available at [www.invesco.com/au](http://www.invesco.com/au). The material relating to 'Benefits of investing in the Invesco funds' may change between the time you read this PDS and the day when you acquire the product.

## 4. Risks of Managed Investment Schemes

Investing in the right managed fund or funds can be a smart way to achieve your financial goals. However, it's important to be aware that all investments are associated with some level of risk; it's unavoidable. Managed investment schemes are no different.

With investing, risk refers to the likelihood that you will not end up with as much money as you started with when you invested initially. In other words, risk is the chance you take of making or losing money on your investment. Generally, assets with the highest expected long-term returns may also have the highest level of short-term risk.

The level of risk may be different for different managed investment schemes, depending on the assets held in accordance with the scheme's investment strategy.

The value of your investment in the Fund is not guaranteed. In line with its underlying investments, the unit price of the Fund and therefore the value of your investment can go up and down. Further, the amount of any income distribution you receive from the Fund could vary or be irregular.

Significant risks for the Fund include:

- **Investment specific risk** - The inherent risk associated with a particular investment made (e.g. a company's shares) that could affect performance.
- **Market risk** - The risk that relates to investment markets, e.g. international markets, fixed interest markets. Markets can be affected by many factors including economic conditions, the political and sovereign environment, outlook for companies, interest rates, inflation and general investor sentiment. These factors will impact the investment market and ultimately the value of a fund.
- **Distribution risk** – There is a risk that during a financial year, the Fund makes income distributions in excess of total taxable income earned by the Fund for that particular financial year. The excess distribution may be treated as a return of capital rather than income and could result in tax implications.
- **Fund risk** - The risk that a fund could terminate, that the fees and expenses increase, or that the investment manager changes. There is also a risk that investing in a fund may give different results than investing directly because of income or capital gains accrued in the fund, and the consequences of investments and withdrawals by other investors.
- **Derivatives risk** - The risk that derivatives do not accurately match the valuations of the underlying physical securities on which they are based, or the extent to which derivatives markets are liquid.
- **Legal/tax/regulatory/country risk** - The risk of changes to laws, economic or political climate in the countries in which a fund is invested. The risk of changes to the taxation of your investment or a Fund's assets that may affect its value either directly or indirectly.
- **Foreign currency risk** - The risk of incurring losses in relation to the value of overseas investments, as a result of movements in currency exchange rates. A fund that is hedged can reduce but not mitigate its exposure to currency risk.
- **Mid cap – small cap risk** - Companies with smaller capitalisation generally have greater risk than larger ones. Their value may fluctuate more greatly than larger ones and their liquidity (ability to buy and sell in a timely fashion) may be less. Their performance may

also be volatile depending on the level of managerial and financial resources available to them.

- **Operational risk** - The risk of technology and processes failing, resulting in delays, errors or financial losses.

When assessing an investment in the Fund it is important to remember:

- The value of your investment will vary over time;
- Investment returns will vary, and future returns may differ from past returns;
- Returns are not guaranteed and you may lose money; and
- Laws affecting your investment may change in the future.

The level of risk appropriate for you will depend on factors such as your age, your investment time frame, your other investments and how comfortable you are with taking risk.

## 5. How we invest your money

### Investment Objective

The Fund aims to provide long-term capital growth, including distributions, through a portfolio of global equities.

### Benchmark

The Fund is managed against the MSCI World ex Australia Net Total Return Index.

### Investment Approach

The Fund primarily invests in global equity securities listed in developed markets through a systematic approach.

The Fund actively takes a position in global equities with the aim of delivering consistent returns above its benchmark. Central to the investment process is Invesco's proprietary factor model, designed to add value through the systematic application of key financial indicators and behavioural concepts developed by the Invesco Quantitative Strategies team.

We combine our stock forecasts with risk and transaction cost forecasts in an optimisation process to generate the most efficient portfolio of securities. The portfolio optimisation process ensures that we actively manage and control risk exposures.

The underlying portfolio generally holds between 400 and 550 stocks, which from time to time may include exchange traded funds (ETFs).

The underlying investments are supported by Invesco's Frankfurt office (Germany), with supervision and monitoring undertaken by our Melbourne office.

We may use derivatives in the management of the Fund, but will not use derivatives for gearing purposes or speculative activities.

The Fund is permitted to borrow and to grant security over its assets. We do not intend to borrow or raise money in connection with the Fund for investment purposes, but may from time to time borrow for administrative purposes such as to cover timing differences between settlement of sales and purchases of underlying securities, and funding withdrawals.

### Typical Asset Class Exposure

Global shares	95 – 100%.
Cash	0 – 5%.

The Fund seeks to generally be fully invested.

### Minimum Suggested Investment Period

Long term - 7 years.

### Indicative Risk Level and investor suitability

High risk – we consider there to be a high degree of variability in Fund returns in any year. The Fund is more likely to produce (relative) higher returns over the longer term. The Fund is suitable to investors seeking a

long-term investment and who seek returns in line with the Fund's investment objectives.

The Indicative Risk Level above is based on the historical performance of the Fund and underlying assets and includes a number of assumptions that we cannot guarantee will hold in the future.

Investors should consider the likely investment return and risk of the Fund and their own investment timeframe when deciding whether to invest.

### Ethical Standards

Generally, we do not select or realise investments based on factors such as ethical and labour standards and environmental, social and governance considerations (ESG), so the Fund is not designed for investors seeking to exclude companies based on these factors. However, we may consider these factors to the extent that they may materially impact on an investment's value or likely return. The Fund is not marketed as an ESG or "sustainable" fund.

You should read the important additional information for a further explanation of ethical standards before making a decision. Go to Section 4 of the 'Additional Information to the Product Disclosure Statements', available at [www.invesco.com/au](http://www.invesco.com/au). The material relating to 'Additional information about Ethical Standards' may change between the time you read this PDS and acquire the product.

### Fund Changes

We have the right to change the objective and investment strategy of the Fund without prior notice. Unitholders will be notified of any material changes as required by the Fund's constitution or the Corporations Act, as applicable.

### Fund Performance

The latest performance information for the Fund is available at [www.invesco.com/au](http://www.invesco.com/au). Past performance is not a reliable indication of future performance.

## 6. Fees and Costs

### Did you know?

Small differences in both investment performance and fees and costs can have a substantial impact on your long-term returns.

For example, total annual fees and costs of 2% of your investment balance rather than 1% could reduce your final return by up to 20% over a 30-year period (for example, reduce it from \$100,000 to \$80,000).

You should consider whether features such as superior investment performance or the provision of better member services justify higher fees and costs.

You may be able to negotiate to pay lower fees. Ask the fund or your financial adviser.

### To find out more

If you would like to find out more, or see the impact of the fees based on your own circumstances, the Australian Securities and Investments Commission ('ASIC') website ([www.moneysmart.gov.au](http://www.moneysmart.gov.au)) has a managed funds fee calculator to help you check out different fee options.

This section shows fees and other costs that you may be charged. These fees and costs may be deducted from your money, from the returns of your investment or from the Fund's assets as a whole. Taxes are set out in section 7 of this document. You should read all the information as it is important to understand their impact on your investment.

### Fees and costs summary

Invesco Global Enhanced Equity Fund – Class A		
Type of fee or cost	Amount	How and when paid
<b>Ongoing annual fees and costs</b>		
Management fees and costs The fees and costs for managing your investments <sup>1</sup>	0.35% per annum of the NAV of the Fund	Management fees and costs are solely comprised <sup>1</sup> of the management fee of 0.35% per annum (Management Fee) which is calculated and accrued daily and paid monthly in arrears, and is directly deducted from the Fund's assets and reflected in the unit price. You may be able to negotiate the Management Fee <sup>2</sup> with us.
Performance fees Amounts deducted from your investment in relation to the performance of the product	Nil	Not applicable
Transaction costs The costs incurred by the scheme when buying or selling assets	0.00% per annum of NAV of the Fund	Transaction costs are variable and deducted from the Fund's assets as they are incurred and reflected in the unit price. They are disclosed net of amounts recovered by the buy-sell spread charged on investor initiated transactions.
<b>Member activity related fees and costs (fees for services or when your money moves in or out of the product)</b>		
Establishment fee The fee to open your investment	Nil	Not applicable
Contribution fee The fee on each amount contributed to your investment	Nil	Not applicable
Buy/sell spread An amount deducted from your investment representing costs incurred in transactions by the scheme	Buy: 0.10% Sell: 0.10%	These costs are an additional cost to the investor but are incorporated into the unit price and arise when investing application monies and funding withdrawals from the Fund and are not separately charged to the investor. The buy/sell spread is retained by the Fund when, respectively, an application or redemption transaction is processed.
Withdrawal fee The fee on each amount you take out of your investment	Nil	Not applicable
Exit fee The fee to close your investment	Nil	Not applicable
Switching fee The fee for changing investment options	Nil	Not applicable

Fees quoted are inclusive of the current GST and net of the reduced input tax credits applicable.

- <sup>1</sup> This excludes any abnormal or extraordinary expenses such as costs of legal proceedings, costs to defend claims, termination and wind up costs, investor meetings, changes to the constitution or changing the Responsible Entity. These expenses are expected to occur infrequently and are recoverable from the Fund as long as they are properly incurred in operating the Fund.
- <sup>2</sup> The Management Fee is negotiable for certain investors see the "Additional explanation of fees and costs" in the Additional Information to the Product Disclosure Statements. Additional fees may be charged by your financial adviser and, if you are an indirect investor, by your IDPS operator, for investing in the Fund.

## Example of annual fees and costs

This table gives an example of how the ongoing annual fees and costs for this managed investment product can affect your investment over a 1-year period. You should use this table to compare this product with other products offered by managed investment schemes.

### Example – Invesco Global Enhanced Equity Fund – Class A (Balance of \$50,000 with a \$5,000 contribution during the year†)

Contribution fees	Nil	You will not be charged a contribution fee.
Plus Management fees and costs	0.35% per annum.	And, for every \$50,000 you have in the Fund you will be charged or have deducted from your investment \$175 each year.
Plus Performance fees	Nil	And, you will not be charged a performance fee.
Plus Transaction costs	0.00% per annum	And, you will be charged or have deducted from your investment \$0 in transaction costs
Equals cost of Fund	0.35% per annum	If you had an investment of \$50,000 at the beginning of the year and you put in an additional \$5,000 during that year, you would be charged fees of \$175*. <b>What it costs you will depend on the fees you negotiate**.</b>

† This example assumes that the additional contribution is received at the end of the year and that there are no investment market movements on either the account value of \$50,000 or the additional contribution. Indirect Costs are nil as such costs are intended to be borne by Invesco out of its management fee.

\* In addition, a buy/sell spread applies to contributions and withdrawals of 0.10% upon entry and 0.10% upon exit which is not expressed in this example. The dollar value of these costs based on an application or a withdrawal of \$50,000 is \$50 for each individual transaction. However, no establishment fee, contribution fee, withdrawal fee or exit fee will be charged. Additional fees may be paid by you to your financial adviser if you have consulted one. Additional fees may also be paid by you if you access the Fund through an IDPS. Please refer to the relevant Statement of Advice, IDPS Guide or their PDS. The transaction costs are based on estimates. As a result, the total fees and costs that you are charged may differ from the figures shown in the table.

\*\* Certain wholesale client investors and eligible employees of Invesco may negotiate a rebate of the Management Fee component.

There is a calculator provided by ASIC on its MoneySmart website ([www.moneysmart.gov.au](http://www.moneysmart.gov.au)) which can be used to calculate the effect of fees and costs on Fund account balances.

## Additional explanation of fees and costs

### Changes to fees and costs

The Fund's constitution entitles us to charge a higher Management Fee than is stated in this PDS. We will increase the Management Fee only after providing 30 days' notice. The Constitution defines the maximum Management Fee that can be charged from the Fund. Expense recoveries may change without notice, for example, when it is necessary to protect the interests of existing members and if permitted by law.

The buy/sell spread is a reasonable estimate as at the date of this PDS, but can be altered by us at any time without advance notice and the Additional Information to the Product Disclosure Statements will be updated as soon as practicable to reflect any such change.

### Additional information to the PDS

You should read the important additional information for a further explanation of fees and costs before making a decision. Go to Section 3 of the 'Additional Information to the Product Disclosure Statements', available at [www.invesco.com/au](http://www.invesco.com/au). The material relating to 'Additional explanation of fees & costs' may change between the time you read this PDS and acquire the product.

## 7. How Managed Investment Schemes are Taxed

Investing in a registered managed investment scheme is likely to have tax consequences. We strongly recommend that you seek professional tax advice before investing in the Fund.

The following summary generally applies to Australian resident investors for Australian income tax purposes who hold their investment for the purpose of realising a long-term return (i.e. held on capital account). It is based on our understanding of the current law as at the date of this document and does not constitute tax advice.

### Taxation of the Fund

The Fund is an Australian resident unit trust for income tax purposes. The Fund should not be treated as a public trading trust for income tax purposes.

The Fund should not be liable to pay Australian income tax on its income and gains on the basis that investors are either presently entitled to all of the Fund's net income (i.e. taxable income) for a financial year or are attributed all of the income where the Attribution Managed Investment Trust ('AMIT') provisions apply.

The AMIT provisions are an elective income tax regime for qualifying Managed Investment Trusts ('MIT') and provide flow-through taxation to unitholders whereby the Fund's income components retain their tax character in the hands of the unitholder. Additional key features of the AMIT regime is the ability of the Fund to carry forward understatements and overstatements of taxable income instead of re-issuing statements to investors and the ability to increase or decrease to the cost base of investors' units in the Fund to alleviate potential circumstances of double taxation.

The Responsible Entity has made an election for the Fund to operate as an AMIT. Accordingly, the Fund will be an AMIT where it continues to satisfy the conditions to be a MIT and the additional conditions to be treated as an AMIT.

Under the AMIT regime, the Responsible Entity will attribute the taxable income of the Fund to unitholders on a fair and reasonable basis consistent with their respective interest in the Fund. Accordingly, unitholders will be assessed on their share of the Fund's taxable income (including any capital gains), exempt income, non-assessable non-exempt income and tax offsets of the Fund as allocated to them by the Responsible Entity (refer to "Taxation of Australian resident investors" below).

### Taxation of Australian resident investors

Investors will be assessed for tax based on the attributed share of the Fund's taxable income, including any capital gains generated by the Fund. The taxable sum of these components may differ to the amount of cash distribution an investor receives.

Distributions from the Fund may entitle unitholders to franking credits and/or foreign income tax offsets ('FITOs'). Distributions may also include tax deferred amounts or return of capital amounts which may reduce the cost base of your investment for capital gains tax ('CGT') purposes.

The Fund will provide an annual tax statement to investors detailing the amount of taxable income attributed to them including information regarding the amount that investors should include in their assessable income, the components of the distribution and amounts which may impact the investor's cost base in the Fund.

Income earned by the Fund from investments outside Australia may be subject to taxation in the country where the income is sourced. If you are an Australian resident for tax purposes, you may be entitled to a FITO for your share of foreign tax paid on the Fund's foreign income. If entitled, you may be able to claim a FITO against your Australian income tax liability. Your ability to utilise these FITOs will depend on your individual

income tax circumstances and we recommend you seek professional tax advice.

### Disposal of units by Australian resident investors

When you fully or partially withdraw units from the Fund, this is treated as a disposal of your investment and you may be subject to CGT. You may also be attributed your share of income derived by the Fund for the period leading up to your redemption and also attributed any gains that the Fund makes to fund your redemption request.

Where a unitholder holds their units in the Fund on capital account and a disposal gives rise to a capital gain, investors that are individuals, trusts and complying superannuation funds may be eligible for the CGT discount if the investment in the Fund has been held for a period of 12 months or greater and the investor satisfies certain other requirements. The amount of the CGT is 50% for an individual or trust, and 33.33% for a complying superannuation fund. Any capital losses arising from the disposal of the investment may be used to offset other gross capital gains derived by the investor.

### Providing a Tax File Number ('TFN') and Australian Business Number ('ABN')

It is not compulsory for a unitholder to quote their TFN or ABN. If you do not quote your TFN or ABN (and do not have a relevant exemption from quoting your TFN or ABN), the Responsible Entity will withhold the applicable amount of tax from distributions paid to you from the Fund at the prescribed withholding tax rates (including Medicare levy if applicable). Investors may be able to claim a credit in the investors' tax return for TFN or ABN tax withheld.

### Taxation of non-resident investors

If you are a non-resident for income tax purposes, the Responsible Entity will withhold the applicable tax from distributions paid to you from the Fund. The amount of income tax withheld may depend on several factors including the character of the income distributed to you and your country of residence. We recommend non-resident investors seek professional tax advice in relation to your specific circumstances.

### Goods and Services Tax (GST)

The Fund is registered for GST. GST is charged at a rate of 10% on taxable supplies. The Fund may incur GST in respect of various expenses and may not be entitled to full input tax credits in respect of all the GST it incurs.

## 8. How to Apply

You should read this PDS in full together with the 'Additional Information to the Product Disclosure Statements' document, Application Form and Target Market Determination document available at [www.invesco.com/au](http://www.invesco.com/au).

Direct investors can acquire units by completing the electronic or hard copy Application Form available at [www.invesco.com/au](http://www.invesco.com/au).

The offer made in this PDS is only available to persons receiving this PDS (electronically or otherwise) within Australia. Applications from outside Australia, including applications from 'US Persons' (as defined in the Regulation S of the US Securities Act 1933) will not be accepted. Investors accessing the Fund through an IDPS should refer to their IDPS service provider.

### Application Form and Identification Requirements

For initial investments, please complete the electronic or hard copy Application Form and relevant certified Client Identification documentation as outlined in the Application Form.

In addition, we may require further information or documentation from you at any time in order to satisfy our obligations under Anti-Money Laundering and Counter Terrorism Financing legislation. If your application is incomplete, we will deposit your application funds into a trust account until the application form is completed. Application funds will be generally held in the trust account for a maximum of 30 days, and

any interest accrued on the account will become part of the assets of the Fund. If after 30 days we have not received your completed Application Form or are unable to process your application, we may return the funds to you (excluding any interest accrued and subject to our legal and regulatory requirements).

Additional investments can be made without requiring further identification requirements.

### Cooling-off Rights

If you invest less than \$500,000 and are not a 'wholesale client' as defined in the Corporations Act, you have a 14-day 'cooling-off' period in which to decide if the investment you have made is right for you.

The cooling-off period commences on the earlier of:

- The date you receive confirmation of your investment; and
- Five days after your units were issued.

The amount of any refund is calculated using the entry unit price applicable for the day you exercise your cooling-off right, and is adjusted for non-refundable tax and duties and any reasonable transaction costs. As a result, the amount refunded may be greater or less than the amount initially invested.

Cooling-off rights will not apply where units are issued pursuant to a switch, as part of a distribution reinvestment arrangement, or where you invest indirectly via an IDPS.

### Complaints Resolution

You should notify us in writing if you have a complaint. We will aim to acknowledge receipt of your complaint within 24 hours of receiving it or as soon as practicable after that.

We will aim to resolve it within 30 days, in accordance with the constitution and compliance plan of the Fund. We will write to you to explain our decision and any further avenues of recourse.

If we have not resolved your complaint within a reasonable time or you are not satisfied with our handling of your complaint, you can refer the matter to the Australian Financial Complaints Authority GPO Box 3 Melbourne VIC 3001; Phone 1800 931 678; Email [info@afca.org.au](mailto:info@afca.org.au); Website [www.afca.org.au](http://www.afca.org.au); Fax (03) 9613 6399.

For investors via an IDPS you may be required to provide proof of investment and investment details prior to Invesco addressing your complaint.

## 9. Other information

### Privacy Policy

Information that Invesco holds about you will be handled in accordance with Invesco's Privacy Policy which is available at [www.invesco.com/au](http://www.invesco.com/au) by calling us on freecall 1800 813 500 or by emailing us at [clientservices.au@invesco.com](mailto:clientservices.au@invesco.com).

Investors investing via an IDPS should be aware that we do not collect or hold your personal information in connection with your investment and that you should contact your IDPS operator for information about the collection, storage and use of your personal information.

### US Tax Withholding and Reporting under the Foreign Account Tax Compliance Act ('FATCA') and Common Reporting Standard ('CRS')

The United States of America ('US') has introduced rules (known as FATCA) which are intended to prevent US persons from avoiding tax. Australia and the US have signed an Inter-Governmental Agreement ('IGA') to implement the FATCA requirements in Australia. Broadly, the rules may require the Fund to report details of certain US persons in the Fund to the Australian Taxation Office ('ATO') who will then forward the information to the US tax authorities. The Responsible Entity may therefore, request that investors and prospective investors provide certain information in order to comply with the requirements.

Invesco is required to identify tax residents of any country other than Australia in order to meet account information reporting requirements under the CRS. If information in Invesco's possession suggests that you, or an entity you control may be a tax resident of a country other than Australia, you may be contacted to provide further information on your tax residency and/or the tax residency status of the entity.

Certain reporting requirements may apply to your account if you do not comply.

You should read the important additional information about related party transactions and conflicts of interest, the Fund constitution and Security Pricing Policy for the Fund before making a decision. Go to Section 4 of the 'Additional Information to the Product Disclosure Statements', available at [www.invesco.com/au](http://www.invesco.com/au). The material relating to 'Related Party Transactions and Conflicts of Interest', 'Fund Constitution' and 'Security Pricing Policy' may change between the time you read this PDS and acquire the product.
