

## **Invesco S&P 500 Scored & Screened UCITS ETF**

### **Supplement to the Prospectus**

This Supplement contains information in relation to the Invesco S&P 500 Scored & Screened UCITS ETF (the "**Fund**"), a Fund of Invesco Markets plc (the "**Company**") an umbrella type open-ended investment company with variable capital, governed by the laws of Ireland and authorised by the Central Bank of Ireland (the "**Central Bank**") of PO Box 559, New Wapping Street, North Wall Quay Dublin 1, Ireland.

**This Supplement forms part of, may not be distributed unless accompanied by (other than to prior recipients of the Prospectus of the Company dated 28 May 2024, as may be amended, supplemented or modified from time to time, (the "Prospectus")), and must be read in conjunction with, the Prospectus.**

**THIS DOCUMENT IS IMPORTANT. YOU SHOULD NOT PURCHASE SHARES IN THE FUND DESCRIBED IN THIS SUPPLEMENT UNLESS YOU HAVE ENSURED THAT YOU FULLY UNDERSTAND THE NATURE OF SUCH AN INVESTMENT AND THE RISKS INVOLVED AND ARE SATISFIED THAT THE INVESTMENT IS SUITED TO YOUR CIRCUMSTANCES AND OBJECTIVES, THE RISKS INVOLVED AND YOUR OWN PERSONAL CIRCUMSTANCES. IF YOU ARE IN ANY DOUBT ABOUT THE CONTENTS OF THIS SUPPLEMENT YOU SHOULD TAKE ADVICE FROM AN APPROPRIATELY QUALIFIED ADVISOR.**

**Capitalised terms used in this Supplement will have the meanings given to them in the Definitions section below or in the Prospectus.**

**Invesco Markets plc**

An umbrella fund with segregated liability between the sub-funds

**Dated 10 February 2025**

## **IMPORTANT INFORMATION**

---

### **Suitability of Investment**

You should inform yourself as to (a) the possible tax consequences, (b) the legal and regulatory requirements, (c) any foreign exchange restrictions or exchange control requirements and (d) any other requisite governmental or other consents or formalities which you might encounter under the laws of the country of your citizenship, residence or domicile and which might be relevant to your purchase, holding or disposal of the Shares.

The Shares are not principal protected. The value of the Shares may go up or down and you may not get back the amount you have invested. See the section headed "Risk Factors" of the Prospectus and the section headed "Other Information – Risk Factors" of this Supplement for a discussion of certain risks that should be considered by you.

In addition to investing in transferable securities, it is the intention of the Company to invest on behalf of the Fund principally in financial derivative instruments ("FDIs") for investment and efficient portfolio management purposes (as detailed below under "Use of Derivative Contracts") where applicable.

The Fund's Shares purchased on the secondary market cannot usually be sold directly back to the Fund. Investors must buy and sell Shares on a secondary market with the assistance of an intermediary (e.g. a stockbroker) and may incur fees for doing so. In addition, investors may pay more than the current net asset value when buying units/shares and may receive less than the current net asset value when selling them.

Certain risks attached to investments in FDIs are set out in the Prospectus under "Risk Factors". The Directors of the Company expect that the Net Asset Value of the Fund will have medium volatility through investments in the FDIs.

Prospective investors should refer to the annex to this Supplement regarding the Fund's environmental and/or social characteristics.

An investment in the Shares is only suitable for you if you (either alone or with the help of an appropriate financial or other advisor) are able to assess the merits and risks of such an investment and have sufficient resources to be able to bear any losses that may result from such an investment. The contents of this document are not intended to contain and should not be regarded as containing advice relating to legal, taxation, investment or any other matters.

### **Profile of a typical investor**

A typical investor would be one who is a private or professional investor and is seeking capital appreciation over the long term. Such an investor is also one that is able to assess the merits and risks of an investment in the Shares.

### **Responsibility**

The Directors (whose names appear under the heading "**Directors of the Company**" of the Prospectus) accept responsibility for the information contained in the Prospectus and this Supplement. To the best of the knowledge and belief of the Directors (who have taken all reasonable care to ensure that such is the case) the information contained in this Supplement when read together with the Prospectus (as complemented, modified or supplemented by this Supplement) is in accordance with the facts as at the date of this Supplement and does not omit anything likely to affect the importance of such information.

### **General**

This Supplement sets out information in relation to the Shares and the Fund. You must also refer to the Prospectus which is separate to this document and describes the Company and provides general information about offers of shares in the Company. You should not take any action in respect of the Shares unless you have received a copy of the Prospectus. Should there be any inconsistency between the contents of the Prospectus and this Supplement, the contents of this Supplement will, to the extent of any such inconsistency, prevail. This Supplement and the Prospectus should both be carefully read in their entirety before any investment decision with respect to Shares is made.

As of the date of this Supplement, the Company does not have any loan capital (including term loans) outstanding or created but unissued and no outstanding mortgages, charges or other borrowings or indebtedness in the nature of borrowings, including bank overdrafts and liabilities under acceptances or acceptance credits, hire purchase or finance lease commitments, guarantees or other contingent liabilities.

### **Distribution of this Supplement and Selling Restrictions**

Distribution of this Supplement is not authorised unless accompanied by a copy of the Prospectus and the latest annual report and audited accounts of the Company and the Fund (other than to prior recipients of the Prospectus) and if published after such report, a copy of the then latest semi-annual report and unaudited accounts. The distribution of this Supplement and the offering or purchase of the Shares may be restricted in certain jurisdictions. If you receive a copy of this Supplement and/or the Prospectus you may not treat such document(s) as constituting an offer, invitation or solicitation to you to subscribe for any Shares unless, in the relevant jurisdiction, such an offer, invitation or solicitation could lawfully be made to you without compliance with any registration or other legal requirement other than those with which the Company has already complied. If you wish to apply for the opportunity to purchase any Shares, it is your duty to inform yourself of, and to observe, all applicable laws and regulations of any relevant jurisdiction. In particular, you should inform yourself as to the legal requirements of so applying, and any applicable exchange control regulations and taxes in the countries of your respective citizenship, residence or domicile.

### **Definitions**

Words and expressions defined in the Prospectus will, unless otherwise defined in this Supplement, have the same meaning when used in this Supplement.

---

## ***TERMS OF THE SHARES REPRESENTING INTERESTS IN THE FUND***

---

### **Investment Objective**

The investment objective of the Fund is to achieve the net total return performance of the S&P 500 Scored & Screened Index (the "**Reference Index**") (less fees, expenses and transaction costs).

The Reference Index is a broad-based, market-cap-weighted index that is designed to measure the performance of securities meeting sustainability criteria, while maintaining similar overall industry group weights as the S&P 500 Index (the "**Parent Index**"). The Reference index has been constructed to provide a risk and return profile similar to that of the Parent Index, while improving ESG characteristics. For full details of the Reference Index please see the index factsheet and index methodology at [www.standardandpoors.com](http://www.standardandpoors.com).

### **Investment Policy**

In order to achieve the investment objective, the Company will on behalf of the Fund invest all or

substantially all of the net proceeds of any issue of Shares in:

- (i) a basket of global equity securities and equity related securities (the "**Basket**") whereby the Fund, in exchange for the performance/return of the Basket with an Approved Counterparty, will receive the return of the unhedged Reference Index or a version of the Reference Index which is denominated in a currency other than USD and hedged, (the "**Hedged Currency Version**"), through unfunded Swaps, being an agreement between the Fund and the Approved Counterparty to exchange one stream of cash flows against another stream pursuant to a master agreement in accordance with the requirements of the International Swaps and Derivatives Association. The purpose of the Hedged Currency Version is to limit, at a Share Class level, the profit or loss generated from foreign exchange exposure when holding a USD denominated asset in a currency other than USD. This is achieved by the Hedged Currency Version employing one month rolling forward FX contracts. The Fund will enter into unfunded Swaps receiving the performance of the Reference Index for Class A Shares and will enter into unfunded Swaps receiving the performance of the Hedged Currency Version for Shares whose currency is different to the currency of the Reference Index; or
- (ii) global equities and equity related securities (which may include common stock and preferred stock) where such instruments will provide the performance of the Reference Index. The Fund will invest directly in these global equities and equity related securities as opposed to entering into a Swap as detailed at (i) above. The global equities and equity related securities may include both constituents of the Reference Index and constituents not included in the Reference Index and shall be listed and/or traded on the exchanges and markets set out in Appendix 1 of the Prospectus. Consequently, the prime criterion for selecting the individual equity and equity related securities is not their perceived attractiveness or potential growth or value but rather their suitability in terms of attaining the investment objective of delivering the performance of the Reference Index. In addition, where Shares are offered and their currency is different to the currency of the global equities and equity related securities, the Fund may employ rolling forward FX contracts to limit the profit or loss generated from foreign exchange exposure when holding a USD denominated asset in a currency other than USD.

The current intention of the Fund is to gain exposure to the Reference Index via an unfunded Swap as detailed at (i). However, the Fund may, having due regard to the best interests of Shareholders, decide from time to time to switch partially or totally between the above described policies at (i) and (ii), and shall inform the Shareholders in advance of any such switch and the Supplement shall be updated accordingly.

The Swaps, the Basket, global equities and equity related securities and ancillary cash held by the Fund shall constitute the "**Fund Assets**" for the purposes of the Prospectus.

Each Approved Counterparty to the Swaps and the Company on behalf of the Fund have entered into a master agreement (including any supporting agreements) and will enter into confirmations for each Swap transaction. Such confirmations may be entered into before or after the relevant transaction and may be in electronic form.

The Fund will not be leveraged for investment or efficient portfolio management purposes and will therefore not be subject to any shortfall risk. Any financial obligation arising in respect of the use of the financial derivative instruments shall never exceed the available capital in the Fund.

The EUR Hdg Acc, EUR Hdg Dist, GBP Hdg Acc, GBP Hdg Dist, CHF Hdg Acc and CHF Hdg Dist shareclasses intend to hedge currency risk either by employing Swaps in respect of the Hedged Currency Version or by employing rolling forward FX contracts (as per paragraphs (i) and (ii) respectively of the Investment Policy section above). In both cases, the aim of the currency hedge is to limit the FX exposure of the Class of Shares which is not denominated in the currency of the Reference Index. Such hedging does not, under normal market conditions, generate additional global exposure under the commitment approach when calculating global exposure of the Fund.

Further information relevant to the Fund's investment policy is contained in the main part of the Prospectus under "**Investment Objectives and Policies**" and under "**Investment**

## **Restrictions". Transparency of the Promotion of Environment or Social**

### **Characteristics**

The Fund is an Article 8 Fund (as defined in the Prospectus).

The environmental and social characteristics promoted by the Fund are to provide exposure a risk and return profile of the Parent Index whilst improving ESG (environmental, social and governance) characteristics. The Fund achieves this by tracking the Reference Index, which has a methodology that is consistent with attaining the environmental and social characteristics promoted by the Fund.

The environmental and social characteristics are achieved by applying the Index Provider's exclusion criteria. Further information on how the environmental and social characteristics promoted by the Fund are achieved is set out under the heading "**General Description of the Reference Index**" below.

The investments underlying the Fund do not currently take into account the EU criteria for environmentally sustainable economic activities as defined in Regulation (EU) 2020/852 on the establishment of a framework to facilitate sustainable investment (the "Taxonomy Regulation") and so the "do no significant harm" principle under the Taxonomy Regulation does not apply to the investments underlying the Fund. The Fund does not intend to be aligned with the Taxonomy Regulation and, at the date of this Supplement, 0% of the Fund's investments will be aligned with the environmental objectives under the Taxonomy Regulation. The Manager will keep the Fund's position vis-à-vis the Taxonomy Regulation under consideration and, to the extent required, the Supplement will be amended accordingly.

Further details on the transparency of the promotion of ESG characteristics are contained in the Prospectus under "**Appendix VI - Sustainable Finance**".

### **Index Tracking Strategy**

The Manager aims to keep the "**Tracking Error**" of the Fund (being the standard deviation of the difference in returns between the Fund and the Reference Index) below or equal to 0.50% under normal market conditions. However, exceptional circumstances may arise which cause the Fund's Tracking Error to exceed 0.50%.

### **Use of Derivative Contracts**

#### *Swaps*

As per the investment policy, the Fund may enter into Swaps to receive the net total return performance of the Reference Index. For the avoidance of doubt, the Approved Counterparty may, where necessary, provide appropriate Collateral to the Company, on behalf of the relevant Fund, in accordance with the Investment Restrictions so that the Company's risk exposure to the Approved Counterparty is reduced to the extent required by the Central Bank.

In order to reduce the tracking difference and/or improve the performance of the Fund, the return on the index provided for the purposes of calculating the Swap may reflect a lower rate of withholding tax than ordinarily applied within the Reference Index.

The Swaps may be terminated by either party at any time at their fair value or on the occurrence of certain events with respect to either the Fund or the Approved Counterparty including, but not limited to, an event of default (such as a failure to pay, breach of agreement or bankruptcy) or a termination event (which is not due to the fault of either party, for example, illegality or a tax event).

If the Swaps are terminated, due to an event of default or termination event, a close-out amount

will be determined with respect to the Swaps. An amount equal to the relevant close-out amount (calculated in accordance with the terms of the Swaps) or such other amount as agreed between the parties will be settled between the Approved Counterparty and the Fund. The Swaps will at all times be valued in accordance with the provisions of the Prospectus. The Fund may then enter into new Swaps unless the Directors resolve that it is inadvisable to enter into new Derivative Contracts, or to invest directly in the underlying securities of the Reference Index or, if the Directors determine that there is no reasonable way to achieve the net total return performance of the Reference Index, the Fund may be terminated in accordance with the provisions of the Prospectus.

The Swaps are unfunded payments and are linked to the return on the Basket. The Swap provides the difference between the payments received for the Basket and the performance of the Reference Index or the Hedged Currency Version, as the case may be.

The Fund may enter into separate Swaps agreements for different Classes of Shares. Each Swap will provide the relevant Class of Shares with exposure to either the Reference Index or to the Hedged Currency Version. Accordingly, the performance of the corresponding equity basket is accounted for at the level of the relevant Class of Shares.

**The Company on behalf of the Fund has filed with the Central Bank its risk management policy which enables it to accurately measure, monitor and manage the various risks associated with the use of Financial Derivative Instruments. The Company will, on request, provide supplementary information to Shareholders relating to the risk management methods employed, including the quantitative limits that are applied and any recent developments in the risk and yield characteristics of the main categories of investments.**

**The Company will use the commitment approach for the purposes of calculating global exposure for the Fund. The total exposure of a Class of Shares to the Reference Index or a Hedged Currency Version, as the case may be, will be limited to 100% of Net Asset Value. The Fund does not have any additional incremental exposure or leveraged exposure to the Reference Index or Hedged Currency Version therefore the global exposure of the Fund is, under normal market conditions, 0% (i.e. the total exposure of the Fund to the Reference Index or Hedged Currency Version will under normal market conditions be limited to 100% of Net Asset Value).**

### **Investment Restrictions**

Investors in particular must note that the general investment restrictions set out under "**Investment Restrictions**" in the Prospectus apply to the Fund.

The Fund shall not invest more than 10% of its net assets in other UCITS or other open or closed ended CIS.

### **Efficient Portfolio Management**

Further information on efficient portfolio management is contained in the main body of the Prospectus under the heading "**Use of Financial Derivative Instruments and Efficient Portfolio Management**".

### **Collateral Policy**

Further information on the collateral policy is contained in the main body of the Prospectus under the heading "**Collateral Policy**".

The Fund may post or receive collateral in accordance with the Company's collateral policy.

### **Consequences of Disruption Events**

Upon the occurrence of a Disruption Event (and without limitation to the Directors personal powers as further described in the Prospectus) an Approved Counterparty may make adjustments to

determine the value of the relevant Swaps and the Net Asset Value may be affected by such adjustment; and/or the Directors may (i) temporarily suspend the calculation of the Net Asset Value and any subscription, repurchase and exchange of Shares in accordance with the provisions of the Prospectus under the section "**Suspension of Calculation of Net Asset Value**"; and/or (ii) the Directors may, in certain circumstances as set out in the Prospectus, terminate the Fund.

### **Limited Recourse**

A Shareholder will solely be entitled to look to the assets of the Fund in respect of all payments in respect of its Shares. If the realised net assets of the Fund are insufficient to pay any amounts payable in respect of the Shares, the Shareholder will have no further right of payment in respect of such Shares nor any claim against or recourse to any of the assets of any other Fund or any other asset of the Company.

### **Leverage**

The Fund does not use leverage in its investments methods or contain any leveraged instrument. As stated under "**General Description of the Reference Index**", the Reference Index, being the S&P 500 Scored & Screened Index, is an unleveraged index. The Hedged Currency Version employs a hedging methodology which may result in leverage being generated on an intra-month basis. In the event that there is a gain on the foreign currency hedge of a Hedged Currency Version, no leverage will result from such gain but where there is a loss from such hedge, leverage will result from such loss. The Manager expects that, under normal market conditions, the level of leverage generated in the Hedged Currency Versions will be minimal. Notwithstanding this, the Fund is unleveraged as any leverage from the hedging methodology will be removed when the Hedged Currency Version is rebalanced each month.

### **Borrowings**

In accordance with the general provisions set out in the Prospectus under the heading "**Borrowing and Lending Powers**", the Company on behalf of the Fund may borrow up to 10% of the Net Asset Value of the Fund on a temporary basis. Such borrowings may only be used for short term liquidity purposes to cover the redemption of Shares.

### **Dividend Policy**

There are no dividend entitlements for the Class Acc Shares, Class EUR Hdg Acc Shares, Class GBP Hdg Acc Shares or Class CHF Hdg Acc Shares.

With respect to Class Dist Shares, Class EUR Hdg Dist Shares, Class GBP Hdg Dist Shares and Class CHF Hdg Dist Shares only and at the discretion of the Board of Directors, the Fund aims to pay quarterly dividends usually on or around 20 March, 20 June, 20 September and 20 December calculated by reference to the embedded reinvested dividends within the Reference Index during the relevant dividend period less taxes or other withholding. The Reference Index seeks to track the price performance of the companies contained within the Reference Index and distributions made by those companies. There is no guarantee that any dividend will be paid. It should be noted that the payment of any dividend will be calculated in a manner such that the declared dividend will never be more than the excess performance of the total return performance of the Fund as calculated by reference to the price return performance of the Reference Index, over the relevant calculation period.

The Company will declare dividends in accordance with the terms of the Prospectus. Only investors who purchase Shares prior to the date on which the relevant dividend is declared by the Board of Directors and remain in the Fund until the date on which the Board of Directors pay the relevant dividend, will receive the declared dividend, otherwise they are not entitled to such dividend. Details relating to the declaration and payment of dividends shall be set out on the Website. One of the economic consequences of the payment of a dividend (if any) is that the Net Asset Value of the Class Dist Shares, Class EUR Hdg Dist Shares, Class GBP Hdg Dist Shares and Class CHF Hdg Dist Shares will be reduced accordingly.

## Trading

Application has been made to Euronext Dublin, the London Stock Exchange and/or such other exchanges as the Directors may determine from time to time (the "**Relevant Stock Exchanges**") for listing and/or admission to trading of the Shares issued and available to be issued on the main market of each of the Relevant Stock Exchanges on or about the Launch Date. This Supplement and the Prospectus together comprise listing particulars for the purposes of trading on the main market of each of the Relevant Stock Exchanges.

## Exchange Traded Fund

The Fund is an Exchange Traded Fund ("**ETF**"). The Shares of this Fund are fully transferable among investors and will be listed and/or traded on the Relevant Stock Exchanges. It is envisaged that Shares will be bought and sold by private and professional investors in the secondary market in the same way as the ordinary shares of a listed trading company.

## General Information Relating to the Fund

<b>Type</b>	Open-ended
<b>Base Currency</b>	USD
<b>Business Day</b>	A day (other than a Saturday or a Sunday) on which the United States Federal Reserve System is open or such other day or days that the Directors may determine and notify to Shareholders in advance.
<b>Dealing Day</b>	Any Business Day. However, some Business Days will not be Dealing Days where, for example, markets on which the Fund's Assets are listed or traded or markets relevant to the Reference Index are closed provided there is at least one Dealing Day per fortnight, subject always to the Directors' discretion to temporarily suspend the determination of the Net Asset Value and the sale, conversion and/or redemption of Shares in the Company or
	any Fund in accordance with the provisions of the Prospectus and the Constitution.  The Investment Manager produces dealing calendars which detail in advance the Dealing Days for each Fund. The dealing calendar may be amended from time to time by the Investment Manager where, for example, the relevant market operator, regulator or exchange (as applicable) declares a relevant market closed for trading and/or settlement (such closure may be made with little or no notice to the Investment Manager).  The dealing calendar for the Fund is available from the Manager.
<b>Dealing Deadline</b>	17:00 (Dublin time) on the relevant Dealing Day. No subscription, exchange or redemption applications may be accepted after the Valuation Point.
<b>Subscriptions, Exchanges and Repurchases In-Kind</b>	All subscriptions, exchanges and repurchases in-kind can only take place through an Authorised Participant or other representative appointed by the Company in the relevant jurisdiction.

<b>Initial Offer Period</b>	The Initial Offer Period in respect of unlaunched Shares will remain open from 9.00 a.m. (Dublin time) on 29 May 2024 until 5.00 p.m. (Dublin time) on 28 November 2024 or such earlier or later date as the Directors may determine as notified to the Central Bank.
<b>Minimum Fund Size</b>	USD 30,000,000
<b>Valuation Point</b>	Close of business on the relevant Dealing Day by reference to which the Net Asset Value per Share of the Fund is determined. At all times the Valuation Point will be after the Dealing Deadline.
<b>Settlement Date</b>	2 Business Days after the relevant Dealing Day.
<b>Website</b>	<a href="http://etf.invesco.com">etf.invesco.com</a> – Information on portfolio composition and details of the indicative net asset value are set out on the Website.

### Description of the Shares

<b>Share Class</b>	<b>"Acc"</b>
<b>Share Class Currency</b>	USD
<b>Minimum Initial Subscription</b>	USD 1,000,000 unless the Directors determine otherwise.
<b>Minimum Subscription</b>	USD 1,000,000 unless the Directors determine otherwise.
<b>Minimum Redemption Amount</b>	USD 1,000,000 unless the Directors determine otherwise.
<b>Minimum Holding</b>	N/A
<b>Launch Date</b>	Means 9 March 2020.

<b>Share Class</b>	<b>"Dist"</b>
<b>Share Class Currency</b>	USD
<b>Initial Issue Price</b>	<p>Means in USD, the official closing level of the Reference Index on the Business Day preceding the Launch Date divided by 8.</p> <p>For example, if on 21 October 2021 the official closing level of the Reference Index was 311.58 and assuming the Fund launched on the following Business Day (i.e. the Launch Date), the Initial Issue Price of the Class Acc Shares in the Fund would be 38.94750.</p> <p>Investors should note that the Initial Issue Price of the Shares on the Launch Date will be available from the Administrator and on <a href="http://etf.invesco.com">etf.invesco.com</a></p>

<b>Minimum Holding</b>	N/A

### Intra-Day Portfolio Value ("iNAV")

Further information on intra-day portfolio value is contained in the main body of the Prospectus under the heading "Intra-Day Portfolio Value".

### Fees and Expenses

The following fees will be incurred on each Share by Shareholders (which accordingly will not be incurred by the Company on behalf the Fund and will not affect the Net Asset Value of the Fund):

<b>Share Class</b>	<b>"Acc"</b>	<b>"Dist"</b>	<b>"EUR Hdg Acc"</b>	<b>"EUR Hdg Dist"</b>	<b>"GBP Hdg Acc"</b>	<b>"GBP Hdg Dist"</b>	<b>"CHF Hdg Acc"</b>	<b>"CHF Hdg Dist"</b>
<b>Subscription Charge</b>	Up to 5%	Up to 5%	Up to 5%	Up to 5%	Up to 5%	Up to 5%	Up to 5%	Up to 5%
<b>Redemption Charge</b>	Up to 3%	Up to 3%	Up to 3%	Up to 3%	Up to 3%	Up to 3%	Up to 3%	Up to 3%

The Subscription Charge is deducted from the investment amount received from an investor for subscription for Shares. Such Subscription Charge is payable to the Manager.

The following fees and expenses will be incurred by the Company on behalf of the Fund and will affect the Net Asset Value of the relevant Share Class of the Fund.

Share Class	Management Fee
"Acc"	Up to 0.09 % per annum or such lower amount as may be advised to Shareholders from time to time.
"Dist"	Up to 0.09 % per annum or such lower amount as may be advised to Shareholders from time to time.
"EUR Hdg Acc"	Up to 0.09 % per annum or such lower amount as may be advised to Shareholders from time to time.
"EUR Hdg Dist"	Up to 0.09 % per annum or such lower amount as may be advised to Shareholders from time to time.
"GBP Hdg Acc"	Up to 0.09 % per annum or such lower amount as may be advised to Shareholders from time to time.
"GBP Hdg Dist"	Up to 0.09 % per annum or such lower amount as may be advised to Shareholders from time to time.
"CHF Hdg Acc"	Up to 0.09 % per annum or such lower amount as may be advised to Shareholders from time to time.
"CHF Hdg Dist"	Up to 0.09 % per annum or such lower amount as may be advised to Shareholders from time to time.

The Management Fee, a percentage of the Net Asset Value of the relevant Class of Shares (plus VAT, if any), is payable by the Company out of the Fund Assets to the Manager. The Management Fee will accrue on each day and will be calculated on each Dealing Day and paid monthly in arrears. The Manager will pay out of its fees (and not out of the assets of the Fund) the fees and expenses (where appropriate) of the Investment Manager, the Administrator, the Depositary, the Directors and the ordinary fees, expenses and costs incurred by the Fund that include Setting Up Costs and Other Administrative Expenses as described in the Prospectus. To assist with meeting some of the Fund's costs (including fees of the Investment Manager, the Administrator, the Depositary and the index licence costs) the Manager may request a fees contribution from the Approved Counterparties (further details are available on request). Investors should note that, due to the costs involved in providing the hedged exposure, it may not be possible to achieve the same dividend rates across each Share Class.

This section headed "**Fees and Expenses**" should be read in conjunction with the section headed "**Fees and Expenses**" in the Prospectus.

---

## **GENERAL DESCRIPTION OF THE REFERENCE INDEX**

---

The Reference Index is the S&P 500 Scored & Screened Index (the “**Reference Index**”). The Reference Index is further described below but only represents an extract of information available from public sources and neither the Directors, the Manager, S&P Dow Jones Indices LLC or such other successor sponsor to the Reference Index (the “**Index Provider**”) nor the Investment Manager take any responsibility for the accuracy or completeness of such information.

The Reference Index is a broad-based, market-cap-weighted index that is designed to measure the performance of securities meeting sustainability criteria, while maintaining similar overall industry group weights as the Parent Index. The Reference index has been constructed to provide a risk and return profile similar to that of the Parent Index, while improving ESG characteristics.

The Reference Index is constructed from the Parent Index by using the Index Provider's exclusionary criteria to exclude from the Parent Index securities that: 1) are involved (as defined by the Index Provider) in business activities in tobacco, controversial weapons, oil sands, small arms, military contracting and thermal coal (extraction and power generation); 2) are classified as Non-Compliant according to the United Nations Global Compact (UNGC) principles are excluded; 3) have a S&P Global ESG Score that falls within the worst 25% of ESG scores from each Global Industry Classification Standard (“**GICS®**”) industry group. S&P Global ESG Scores employ data gathered through SAM's Corporate Sustainability Assessment (CSA), which SAM has developed and administered over 20 years.

The Reference Index then targets 75% of the float market capitalisation of each GICS® industry group within the Parent Index.

The Reference Index is rebalanced on an annual basis to screen for the ESG exclusions and target the GICS® industry groups, effective after the close of the last business day of April. On a quarterly basis, the Index Provider assesses the compliance of the securities comprising the Reference Index with some of the ESG criteria described above (each an “**Index Review Date**”). On each Index Review Date, securities may be removed from the Reference Index if such securities breach the exclusionary screens (1) and (2) set out above. Securities may also be removed from the Reference Index outside of an Index Review Date, if assessed by the Index Provider to be in breach of the exclusionary screen set out in (2) above. The rebalancing frequency of the Reference Index has no direct impact on the transaction costs associated with the Fund itself as any rebalancing within the Reference Index is not expected to require any higher frequency of position turnover in the Fund than would otherwise be the case were the Reference Index to be static.

The Reference Index is calculated in USD. The Reference Index has different currency versions, denominated in a currency other than USD (each a “**Hedged Currency Version**”). Such Hedged Currency Versions employ forward FX contracts to provide the relevant currency return. The Hedged Currency Versions are designed to represent the returns of the Reference Index while hedging currency risk but not the underlying equity market risk. By employing such a strategy, the Hedged Currency Versions seek to reduce the risk of downward currency fluctuations although potential currency gains may also be sacrificed.’

The Manager monitors the investment restrictions applicable to the Fund. As soon as the Manager becomes aware that the weighting of any particular component stock in the Reference Index exceeds the permitted investment restrictions, the Manager will seek to either unwind that particular position or reduce the Fund's exposure to that component stock to ensure that the Fund at all times operates within the permitted investment restrictions and complies with the requirements of the UCITS Regulations.

Exposure to the Reference Index will give an indirect exposure to the individual securities comprising the Reference Index of up to 20% of its Net Asset Value.

## Index Provider and Website

The Reference Index is sponsored by S&P Dow Jones Indices LLC and more details on the Reference Index can be found at [www.standardandpoors.com](http://www.standardandpoors.com).

## Publication

The level of the Reference Index will be published on: [www.standardandpoors.com](http://www.standardandpoors.com).

---

## OTHER INFORMATION

---

## Risk Factors

Certain risks relating to the Shares are set out under the heading "**Risk Factors**" in the Prospectus. In addition, Shareholders must also note that:

- (a) Environmental, Social and Governance Risk: The Fund intends to gain exposure to securities of issuers that manage their ESG exposures better relative to their peers. This may affect the Fund's exposure to certain issuers and cause the Fund to forego certain investment opportunities. The Fund may perform differently to other funds, including underperforming other funds that do not seek to invest in securities of issuers based on their ESG ratings.
- (b) The return payable under the Swaps with an Approved Counterparty is subject to the credit risk of the Approved Counterparty. In addition, the Approved Counterparty will act as the calculation agent under the Swaps (the "**Calculation Agent**"). Shareholders should note that not only will they be exposed to the credit risk of the Approved Counterparty but also potential conflicts of interest in the performance of the function of Calculation Agent by the Approved Counterparty. The Approved Counterparty has undertaken to use its reasonable endeavours to resolve any such conflicts of interest fairly (having regard to its respective obligations and duties) and to ensure that the interests of the Company and the Shareholders are not unfairly prejudiced. The Directors believe that the Approved Counterparty is suitable and competent to perform such functions. In addition the valuations provided by the Approved Counterparty in its role as Calculation Agent will be verified at least weekly by a party independent of the Approved Counterparty who shall either be the Administrator or sourced by the Administrator as appropriate and who has been approved for such purpose by the Depositary.
- (c) Classes of Shares denominated in currencies other than USD are exposed to the Hedged Currency Version relating to the currency of denomination. Consequently, returns in respect of a Class denominated in one currency may differ from those in respect of Classes denominated in different currencies. For example, if the Reference Index's value (which is denominated in USD) increases, the amount of increase in the Hedged Currency Version denominated in Euro, GBP or CHF will depend on the exchange rate between USD and the relevant currency; if the USD is relatively weak against the relevant currency, the increase in the relevant Hedged Currency Version will be smaller than if the USD is relatively strong against the relevant currency. In addition, the exchange rates used in determining the Hedged Currency Versions may be less favourable than exchange rates which may be obtained from other sources.
- (d) The Fund may be exposed to a single country or small number of countries. A geographically concentrated investment strategy may be subject to a greater degree of volatility and of risk than one that is geographically diversified. The Fund's Investments will become more susceptible to fluctuations in value resulting from economic or business conditions in the country where the Fund is invested. As a consequence, the aggregate return of the Fund may be adversely affected by the unfavourable developments in such country.

- (e) Dividends are subject to assumed tax rates - Any announced dividend in respect of a component stock comprising the Basket will be reduced by an assumed tax rate (which may be zero), which is intended to reflect the withholding tax rate levied, or the potential tax rate that may be levied, by the country of incorporation or residence of the issuer of such component stock. The assumed tax rate will be determined by the Index Calculation Provider based on its view of applicable law and/or regulations, observable sources and/or market practice. The assumed tax rates may be amended from time to time by the Index Calculation Provider. If the assumed tax rate in respect of one or more component stocks is increased then the performance of the Reference Index may be affected.
- (f) Although the Fund may enter into derivative transactions with one or more Approved Counterparties, there is no requirement for the Fund to execute transactions with more than one Approved Counterparty and consequently counterparty risk may be concentrated in a single counterparty or a small number of counterparties. Further, there is no agreement between any Approved Counterparty and the Fund for any such Approved Counterparty to substitute themselves for another counterparty which defaults under a derivative agreement or to make good any losses which the Fund may incur as a result of a counterparty default.
- (g) The Fund synthetically replicates the performance of the Reference Index through Swaps. Investment in the Fund does not constitute a direct or indirect purchase or other acquisition or assignment of any interest in any component stock of the Reference Index. As such, the risks and returns of an investment in the Fund may differ significantly from a cash investment in the relevant component stocks of the Reference Index. There can be no assurance that the Reference Index will be successful at producing positive returns consistently or at all, and in exceptional circumstances, the value of the Reference Index could fall to zero. In those circumstances, the Fund's net economic exposure will be to the Reference Index and not to the physical holdings of the Fund.
- (h) The regulatory standards for environmental related disclosures are evolving (including fund categorisations, fund names and labels). Whilst the Fund is currently meeting disclosure requirements, as the regulatory landscape develops, this may result in the Fund ceasing to meet applicable standards and the Fund may be required to forego its current categorisation, name or label if it is deemed by the Investment Manager appropriate to maintain the existing investment objective and policy of the Fund.
- (i) Liquidity risk exists when a particular instrument is difficult to purchase or sell. If a derivative transaction is particularly large or if the relevant market is illiquid as is the case with many privately negotiated derivatives, it may not be possible to initiate a transaction or liquidate a position at an advantageous price or at all, and this may impact the Manager's ability to process subscription and redemption requests.

**Investors should also refer to the Prospectus for additional disclosure of risks and conflicts of interest.**

An English version of a term-sheet summarising the general terms of all derivative contracts, such as swap agreements, are available to investors upon request at the Company's registered office.

THERE ARE NO THIRD PARTY BENEFICIARIES OF ANY AGREEMENTS OR ARRANGEMENTS BETWEEN S&P DOW JONES INDICES AND THE MANAGER, OTHER THAN THE LICENSORS OF S&P DOW JONES INDICES.

**Sustainable investment** means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

## Environmental and/or social characteristics

### Does this financial product have a sustainable investment objective?

Yes

It will make a minimum of **sustainable investments with an environmental objective:** \_\_\_\_\_%

in economic activities that qualify as environmentally sustainable under the EU Taxonomy

in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

It will make a minimum of **sustainable investments with a social objective:** \_\_\_\_\_%

No

It **promotes Environmental/Social (E/S) characteristics** and while it does not have as its objective a sustainable investment, it will have a minimum proportion of \_\_\_\_\_% of sustainable investments

with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy

with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

with a social objective

It promotes E/S characteristics, but **will not make any sustainable investments**

### What environmental and/or social characteristics are promoted by this financial product?

The environmental and social characteristics promoted by the Fund are to provide indirect exposure to the S&P 500 Scored & Screened Index ("**Reference Index**"), thereby gaining exposure to similar overall industry group weights as the Parent Index whilst improving the Fund's ESG characteristics. The Fund achieves this by tracking the Reference Index, which has a methodology consistent with attaining the environmental and/or social characteristics promoted by the Fund.

The environmental and/or social characteristics are achieved by excluding from the S&P 500 Index (the "**Parent Index**") issuers involved in certain business activities deemed by the Index Provider to be inconsistent with ESG outcomes, issuers that are involved in severe ESG controversies, and issuers that fall within 25% of the worst scoring in each Global Industry Classification Standard (GICS®) industry group according to S&P Global ESG Scores. The Investment Manager also applies substantially similar business involvement and controversy exclusion criteria of the Index Provider to the underlying Basket.

● **What sustainability indicators are used to measure the attainment of each of the environmental or social characteristics promoted by this financial product?**

The Fund uses a variety of indicators to measure the attainment of the environmental and social characteristics. This includes:

- S&P Global ESG Score (as defined in the methodology of the Reference Index) improvement relative to the Parent Index
- CO2 emissions reduction relative to the Parent Index
- Percentage of the Fund portfolio invested in excluded companies involved in controversial business activities and controversies (as defined in the methodology of the Reference Index).

● **What are the objectives of the sustainable investments that the financial product partially intends to make and how does the sustainable investment contribute to such objectives?**

NA

**Sustainability indicators** measure how the environmental or social characteristics promoted by the financial product are attained.

**Principal adverse impacts** are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

● **How do the sustainable investments that the financial product partially intends to make, not cause significant harm to any environmental or social sustainable investment objective?**

NA

● **How have the indicators for adverse impacts on sustainability factors been taken into account?**

NA

● **How are the sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:**

NA

*The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific EU criteria.*

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

*Any other sustainable investments must also not significantly harm any environmental or social objectives.*

**Does this financial product consider principal adverse impacts on sustainability factors?**

Yes     No

The net economic exposure of the Fund is to the constituent securities in the Reference Index. This exposure is achieved indirectly, through Swaps. Through the application of the various exclusionary criteria in the methodology of the Reference Index, the Companies in the Reference Index consider principal adverse impacts on sustainability factors.

The index methodology directly excludes a number of companies involved in certain business activities. Through removal of companies involved in thermal coal and oil sands the index reduces its exposure to greenhouse gas emissions. The methodology also excludes companies involved in Controversial Weapons, and those that are deemed non-compliant with the principles of the United Nations Global Compact. Through selection of constituents based on S&P Global ESG Scores, the index also addresses a number of other adverse indicators. The index also excludes any companies where data isn't available to make such assessments.

The Fund basket operates with similar exclusions, removing companies involved in thermal coal, oil sands, controversial weapons, and those that are deemed non-compliant with the principles of the United Nations Global Compact. The fund basket also excludes any companies where data isn't available to make such assessments.

S&P Global ESG Scores consider a number of key issues in their construction, including, but not limited to greenhouse gas emissions, energy consumption, hazardous waste, board gender diversity, and gender pay gap. The scores also take into account if there have been recent controversies in the area of water operations.

The exclusion criteria that the Investment Manager applies to the Basket does not consider principal adverse impacts on sustainability factors.

**What investment strategy does this financial product follow?**

The investment objective of the Fund is to achieve the net total return performance of the Reference Index, less fees, expenses and transaction costs.

In order to achieve the investment objective, the Company will on behalf of the Fund invest all or substantially all of the net proceeds of any issue of shares in a basket of global equity securities and equity related securities whereby the Fund (the "**Basket**"), in exchange for the performance/return of

**The investment strategy** guides investment decisions based on factors such as investment objectives and risk tolerance.

**Good governance**  
practices include sound management structures, employee relations, remuneration of staff and tax compliance.

the Basket with an Approved Counterparty, will receive the return of the unhedged Reference Index or a version of the Reference Index which is denominated in a currency other than USD and hedged, through unfunded swap ("**Swaps**").

Counterparties are selected based on a range of financial, risk, reputational and other criteria, in accordance with the guidance of the Central Bank. An assessment of ESG-related risks, both financial and reputational, is included as part of this assessment. A financial ESG risk is one that could materially impact on a counterparty's ability to meet its financial obligations. A reputational ESG risk is one where the Investment Manager may deem it ethically, morally or socially unacceptable to continue engaging with the given counterparty, or where ongoing engagement may be impacted by government, regulatory or other sanctions.

Where an ESG risk is identified, whether financial or reputational, the Investment Manager may engage with the counterparty to manage the exposure of the Fund to the ESG risk. If, in the opinion of the Investment Manager, the ESG risk cannot be mitigated, it may impact on the Investment Manager's decision to enter into derivative transactions with the counterparty. However, the consideration of ESG risk is only one part of the counterparty assessment process. Where the overall view on creditworthiness of a counterparty remains positive, the Fund may continue to enter into transactions with that counterparty if it is felt that restricting their use as a counterparty would impose an undue burden on the Fund and would impair the Investment Manager's ability to ensure best execution.

Please note that this Annex forms part of, and should be read in conjunction with the Supplement. Please refer to the Supplement for further information.

● **What are the binding elements of the investment strategy used to select the investments to attain each of the environmental or social characteristics promoted by this financial product?**

The Fund is passively managed and synthetically replicates the performance of the Reference Index within an acceptable tracking error and in accordance with the investment policy as outlined in the Supplement.

As the investment objective of the Fund is to achieve the performance of the Reference Index, the Fund will share the same environmental and social characteristics as the underlying Reference Index. The attainment of those environmental and social characteristics is achieved by gaining exposure to the Reference Index through swaps.

The Reference Index is constructed from the Parent Index by using the Index Provider's exclusionary criteria to exclude from the Parent Index securities that: 1) are involved (as defined by the Index Provider) in business activities in tobacco, controversial weapons, oil sands, small arms, military contracting and thermal coal (extraction and power generation); 2) are classified as Non-Compliant according to the United Nations Global Compact (UNGC) principles are excluded; 3.) have a S&P Global ESG Score that falls within the worst 25% of in each GICS® industry group according to S&P Global ESG Scores. The S&P Global ESG Scores employ data gathered through SAM's Corporate Sustainability Assessment (CSA), which SAM has developed and administered over 20 years.

The Reference Index then targets 75% of the float market capitalisation of each GICS® industry group within the Parent Index.

The Reference Index is rebalanced on an annual basis to screen for the ESG exclusions and target the GICS® industry groups, effective after the close of the last business day of April. On a quarterly basis, the Index Provider assesses the compliance of the securities comprising the Reference Index with some of the ESG criteria described above (each an "**Index Review Date**"). On each Index Review Date, securities may be removed from the Reference Index if such securities breach the exclusionary screens (1) and (2) set out above. Securities may also be removed from the Reference Index outside of an Index Review Date, if assessed by Index Provider to be in breach of the exclusionary screen set out in (2) above.

Where a previously eligible security subsequently ceases to meet the environmental or social characteristics of the Fund, the security may continue to feature as a component of the Reference Index until such time that the security is removed at the next rebalance date.

The ESG scoring criteria of the methodology of the Reference Index is not applied to the Basket, however the Investment Manager will apply minimum ESG safeguards by applying substantially similar business involvement and controversy exclusion criteria as the Reference Index. Such exclusions may vary depending on the activity, from zero tolerance to exclusions based on percentage of revenue or other measures.

● **What is the committed minimum rate to reduce the scope of the investments considered prior to the application of that investment strategy?**

The methodology of the Reference Index excludes issuers that fall within the worst 25% in each GICS® industry group, according to S&P Global ESG Scores.

● **What is the policy to assess good governance practices of the investee companies?**

The Fund has direct physical holdings in a Basket of securities, but retains no net economic exposure to these companies due to the effect of the swap agreements. The Investment Manager applies exclusion criteria to the universe of eligible securities that may be included in the Basket to ensure that they follow good governance practices.

The net economic exposure of the Fund is to the constituent securities in the Reference Index. This exposure is achieved indirectly, through Swaps. Through the application of the various exclusionary criteria defined in the index methodology, the companies in the Reference Index also follow good governance practices.

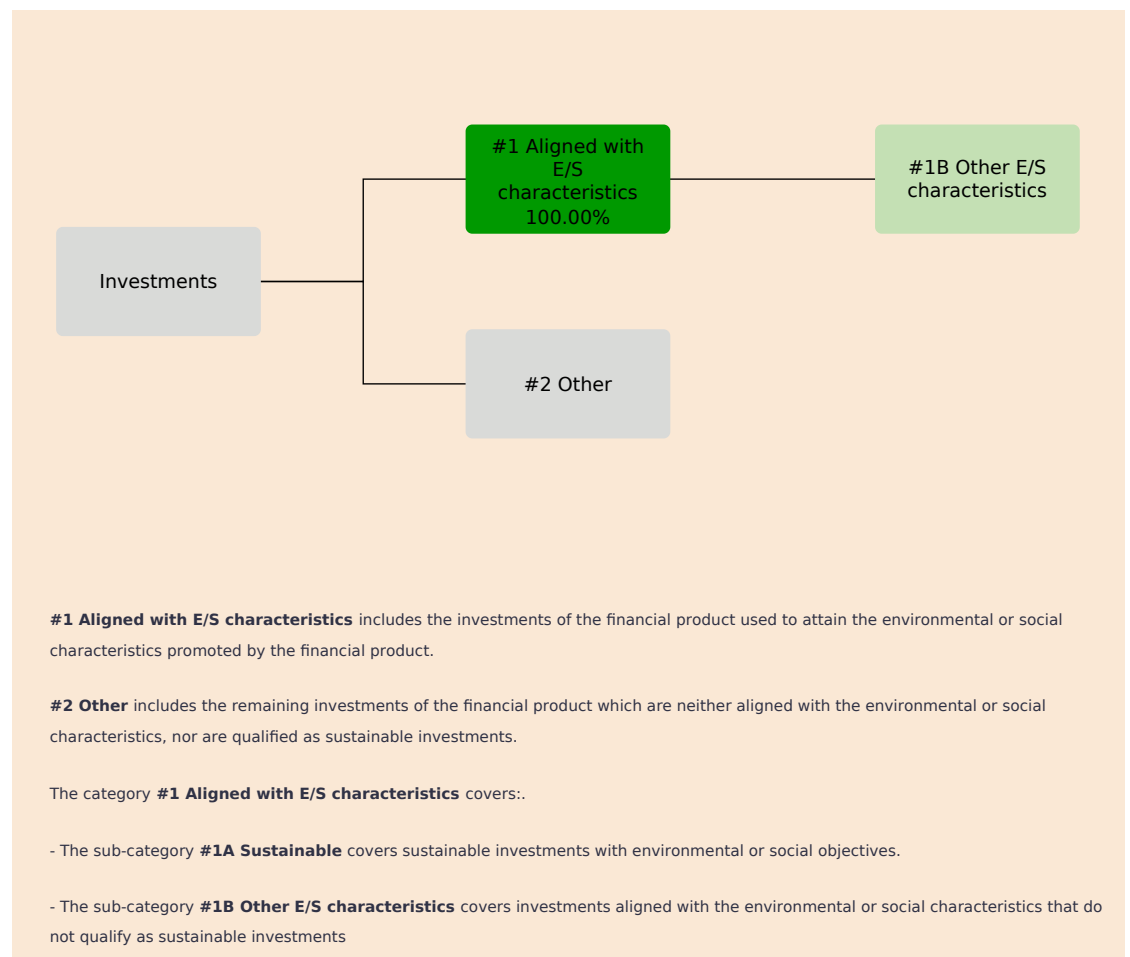

**Asset allocation** describes the share of investments in specific assets.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

**What is the asset allocation planned for this financial product?**

Excluding possible de minimis residual cash holdings, 100% of the Fund’s investments will be used to attain the environmental and social characteristics of the Fund by gaining indirect exposure to the Reference Index. To do this, the Company will, on behalf of the Fund, invest all or substantially all of the net proceeds of any issue of Shares in a Basket of global equity and equity-related securities. The Fund will then enter into an unfunded swap contract with an Approved Counterparty through which it will pay away the performance/return of the Basket of securities and receive in return the performance of either the Reference Index, or of a currency-hedged variant thereof, as required to produce the necessary returns for any currency-hedged share classes of the Fund.

● **How does the use of derivatives attain the environmental or social characteristics promoted by the financial product?**

The Fund gains exposure to the Reference Index through unfunded Swaps. The Fund promotes the same environmental and social characteristics as those of the Reference Index, which is to gain exposure to the Parent Index, whilst improving ESG characteristics.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules

**Enabling activities** directly enable other activities to make a substantial contribution to an environmental objective.

**Transitional activities** are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

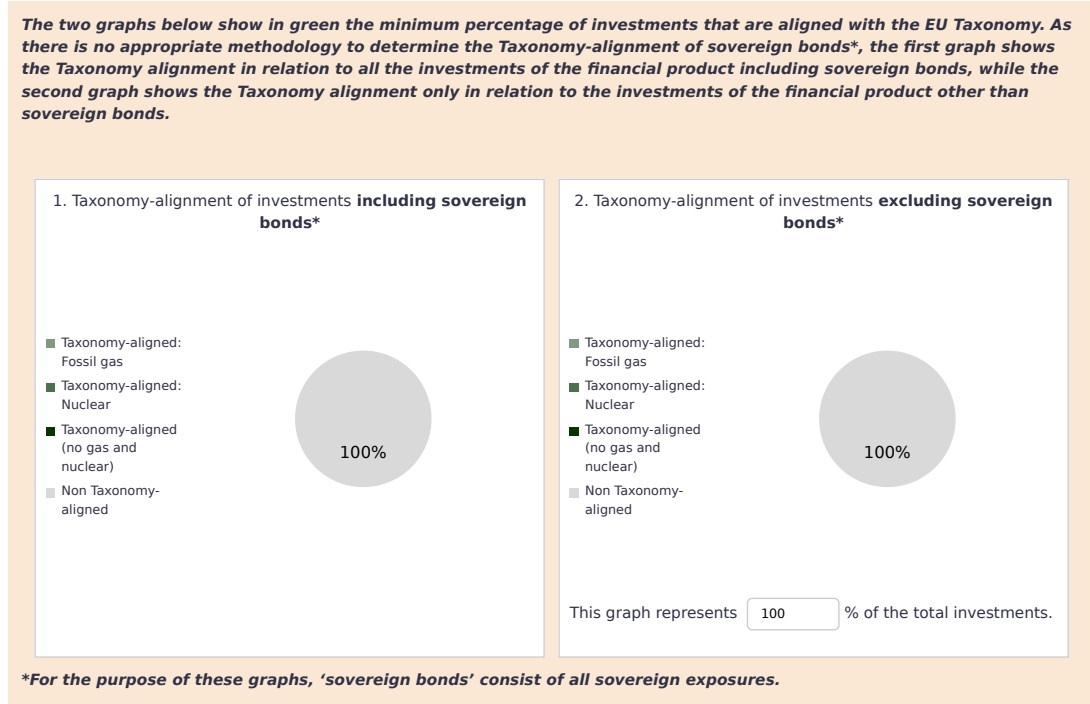

**To what minimum extent are sustainable investments with an environmental objective aligned with the EU Taxonomy?**

0%

● **Does the financial product invest in fossil gas and/or nuclear energy related activities that comply with the EU Taxonomy<sup>1</sup>?**

- Yes
  - In fossil gas
  - In nuclear energy
- No

**What is the minimum share of investments in transitional and enabling activities?**

NA

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under the EU Taxonomy.

**What is the minimum share of sustainable investments with an environmental objective that are not aligned with the EU Taxonomy?**

NA

**What is the minimum share of socially sustainable investments?**

NA

**What investments are included under "#2 Other", what is their purpose and are there any minimum environmental or social safeguards?**

NA

**Is a specific index designated as a reference benchmark to determine whether this financial product is aligned with the environmental and/or social characteristics that it promotes?**

Yes

**Reference benchmarks** are indexes to measure whether the financial product attains the

<sup>1</sup> Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm to any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

environmental or social characteristics that they promote.

● **How is the reference benchmark continuously aligned with each of the environmental or social characteristics promoted by the financial product?**

The Reference Index has been selected on the basis that it aligns with the environmental and social characteristics promoted by the Fund, which are to provide exposure to similar overall industry group weights of the Parent Index, whilst improving the Fund's ESG characteristics by excluding issuers from the Parent Index that are involved in certain business activities deemed by the Index Provider to be inconsistent with ESG outcomes, issuers that are involved in severe ESG controversies, and issuers that fall within the worst 25% in each GICS® industry group according to S&P Global ESG scores.

● **How is the alignment of the investment strategy with the methodology of the index ensured on a continuous basis?**

The Fund synthetically replicates the performance of the Reference Index by receiving the return of the Reference Index through unfunded Swaps.

● **How does the designated index differ from a relevant broad market index?**

The Reference Index differs from a broad market index because it excludes issuers that are involved in certain business activities deemed by the Index Provider to be inconsistent with ESG outcomes, issuers that are involved in severe ESG controversies, and issuers that fall within the worst 25% from each GICS® industry group, according to S&P Global ESG scores.

● **Where can the methodology used for the calculation of the designated index be found?**

Please refer to the index methodology which can be found on the 'Documents' tab of the Fund at [etf.invesco.com](http://etf.invesco.com).

**Where can I find more product specific information online? More product-specific information can be found on the website:**

More product-specific information can be found on the Fund's webpage at [etf.invesco.com](http://etf.invesco.com).
