What is this product?

Type

The Fund is a sub-fund of the Umbrella Fund which is incorporated in Ireland and authorised by the Central Bank of Ireland as a limited liability Irish collective asset management vehicle with segregated liability between its sub-funds.

Term

The Fund has no maturity date. The Fund may be terminated unilaterally by the directors of the Umbrella Fund and there are circumstances in which the Fund can be terminated automatically, as further described in the prospectus.

Objectives

Investment objective:

The objective of the Fund is to provide exposure to the performance of large and mid-capitalisation listed US companies.

Investment approach:

The Fund is passively managed.

To achieve the investment objective, the Fund will seek to replicate the net total return performance of the MSCI USA Index (the "**Index**") less fees, expenses and transactions costs.

The Fund will use unfunded swaps ("**Swaps**"). These Swaps are an agreement between the Fund and an approved counterparty to exchange one stream of cash flows against another stream but do not require the Fund to provide collateral, on the basis that the Fund has already invested in a basket of equities and equity related securities (namely shares). Please note that the Fund will purchase securities that are not contained in the Index. The performance of the Index is swapped from the counterparty to the Fund in exchange for the performance of equities and equity related securities held by the Fund.

The Fund uses derivatives for investment purposes. The use of such instruments may impact the magnitude and frequency of the fluctuations in the value of the Fund. The Fund's ability to track the Index performance is reliant on the counterparties to continuously deliver the performance of the Index in line with the swap agreements. The insolvency of any institutions acting as counterparty to derivatives or other instruments, may expose the Fund to financial loss.

The Fund's base currency is USD.

The Share Class currency is GBP.

The Index:

The Index measures the performance of large and mid-capitalisation companies in the USA. The Index aims to cover approximately 85% of the free float-adjusted market capitalisation of the U.S. equity market. The Index is a free float-adjusted,

market capitalisation-weighted index, that is comprised of constituents from across all sectors.

The Index is rebalanced on a quarterly basis.

This document provides a summary of the principal features of the Index, the complete description of the Index (available from the Index provider) shall at all times prevail. Investors should note that the Index is the intellectual property of the Index provider. The Fund is not sponsored or endorsed by the Index provider and a full disclaimer can be found in the Fund's supplement.

Dividend Policy:

This Share Class does not pay you income, but instead reinvests it to grow your capital, in line with its stated objectives.

Redemption and Dealing of Shares:

You can buy and sell shares in the Fund on any Dealing Day (as defined in the supplement).

Intended Retail Investor

The Fund is intended for investors aiming for long term capital growth, who may not have specific financial expertise but are able to make an informed investment decision based on this document, the supplement, and the prospectus, have a risk appetite consistent with the risk indicator displayed below and understand that there is no capital guarantee or protection (100% of capital is at risk).

Practical Information

Fund Depositary: Northern Trust Fiduciary Services (Ireland) Limited, George's Court, 54 – 62 Townsend Street, Dublin 2, Ireland.

Find out more: This document is specific to the Fund. Further information about the Fund can be obtained from the supplement, the prospectus, annual and interim reports. The prospectus, annual and interim reports are prepared for the Umbrella Fund, of which the Fund is a sub-fund. These documents are available free of charge in English. They can be obtained along with other information, such as share prices, at <https://etf.invesco.com> (select your country and navigate to the Documents section on the product page), or by calling +353 1 439 8000.

Pursuant to Irish law, the assets of the Fund are segregated from other sub-funds in the Umbrella Fund (i.e. the Fund's assets may not be used to discharge the liabilities of other sub-funds of the Umbrella Fund). This position may be considered differently by the courts in jurisdictions outside of Ireland.

Subject to satisfying certain criteria as set out in the prospectus, investors may be able to exchange their investment in the Fund for shares in another sub-fund of the Umbrella Fund which is being offered at that time.

What are the risks and what could I get in return?

Risk Indicator

The risk indicator assumes that you keep the product for 5 years. The actual risk can vary significantly if you cash in at an early stage and you may get back less.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 4 out of 7, which is a medium risk class.

This rates the potential losses from future performance at a medium level, and poor market conditions could impact the ability for you to receive a positive return on your investment.

Be aware of currency risk. In some circumstances, you may receive payments in a different currency from your local currency, so the final return you will get may depend on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

For other risks materially relevant to this product which are not taken into account in the summary risk indicator, please refer to the prospectus and/or the Fund's supplement.

This product does not include any protection from future market performance so you could lose some or all of your investment.

Performance Scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product /a suitable benchmark over the last 10 years. The scenarios shown are illustrations based on results from the past and on certain assumptions. Markets could develop very differently in the future.

The stress scenario shows what you might get back in extreme market circumstances.

The unfavourable scenario occurred for an investment in the proxy between November 2024 and December 2025.

The moderate scenario occurred for an investment in the proxy between March 2017 and March 2022.

The favourable scenario occurred for an investment in the proxy between April 2016 and April 2021.

What happens if Invesco Investment Management Limited is unable to pay out?

The assets of the Fund are segregated from those of Invesco Investment Management Limited. In addition, the Depositary of the Umbrella Fund is responsible for the safekeeping of the assets of the Fund. To that effect, if Invesco Investment Management Limited defaults, there will be no direct financial impact on the Fund. In addition, the assets of the Fund shall be segregated from the Depositary's assets, which may limit the risk for the Fund suffering some loss in case of default by the Depositary. As a shareholder in the Fund, there is no compensation or guarantee scheme in place.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest and how long you hold the product. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year, you would get back the amount that you invested (0 % annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.
- GBP 10,000 is invested.

	If you exit after 1 year	If you exit after 5 years
Total costs	13 GBP	127 GBP
Annual cost impact (*)	0.1%	0.1% each year

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 14.4% before costs and 14.3% after costs.

How long should I hold it and can I take money out early?

Recommended holding period: 5 years

This Share Class has no required minimum holding period however we have selected 5 year(s) as the recommended holding period as the Share Class invests for the long term therefore you should be prepared to stay invested for at least 5 year(s).

You can sell your shares in the fund on any Dealing Day during this period, or hold the investment longer. For details on Dealing Days, please refer to the "What is this product?" section and consult the "What are the costs?" section for details of any applicable fees. If you sell some or all of your investment before 5 year(s), your investment will be less likely to achieve its objectives; however, you will not incur any additional costs by doing so.

How can I complain?
