What is this product?

Type

The Fund is an Exchange-Traded Fund ("**ETF**"), a sub-fund of the Umbrella Fund which is incorporated in Ireland and authorised by the Central Bank of Ireland as a limited liability umbrella type open ended UCITS investment company with variable capital and segregated liability between its sub-funds.

Term

The Fund has no maturity date. The Fund may be terminated unilaterally by the directors of the Umbrella Fund and there are circumstances in which the Fund can be terminated automatically, as further described in the prospectus.

Objectives

Investment objective:

The objective of the Fund is to provide exposure to the performance of large and midcapitalisation companies, that pass screens for adherence to Shari'ah investment principles, from global developed and emerging markets.

Investment approach:

The Fund is a passively managed ETF.

To achieve the investment objective the Fund will seek to replicate the net total return performance of the MSCI ACWI Islamic M-Series Index (the "**Index**"), less fees, expenses and transaction costs.

The Fund will employ sampling techniques to select securities in the Index which may include but are not limited to country weights, industry sectors and liquidity.

The use of the sampling approach will result in the Fund holding a smaller number of securities than are in the underlying Index.

In the unlikely event that a security ceases to meet Shari'ah investment principles, the Investment Manager will disinvest at the next relevant rebalance in line with the Index, having due regard to the best interest of the shareholder, and subject to liquidity, regulatory and other factors.

The Fund may use derivative instruments for the purposes of managing risk, reducing costs, generating additional capital or income.

The Fund's base currency is USD.

The Index:

The Index is designed to reflect the performance of large and mid-cap securities that pass screens for adherence to Shari'ah investment guidelines from both developed and emerging market countries. Performance of the Index does not reflect non-permissible income received from underlying securities. The Index is constructed from the MSCI ACWI Index (the "**Parent Index**") by first removing companies that are involved in prohibited business activities according to Shari'ah investment principles. Financial ratio screens are then applied to the remaining eligible securities to ensure compliance with Shari'ah investment principles. Business activity involvement, thresholds and financial ratio screening criteria are defined by the Index provider. Further information in relation to any thresholds and screening criteria can be obtained from the Index provider's website. The Index employs a float-adjusted market capitalisation weighting scheme of remaining securities.

The Index is rebalanced on a quarterly basis.

This document provides a summary of the principal features of the Index, the

complete description of the Index (available from the Index provider) shall at all times prevail. Investors should note that the Index is the intellectual property of the Index provider. The Fund is not sponsored or endorsed by the Index provider and a full disclaimer can be found in the Fund's supplement.

Dividend Policy:

This Share Class does not pay you income, but instead reinvests it to grow your capital, in line with its stated objectives. Where the Manager has identified any income that is deemed to be inconsistent with Shari'ah investment principles, this amount will be segregated from the assets of the Fund and will not be reinvested and instead will be donated to a charity selected by the Manager. This treatment is in line with the approach taken by the Index. The level of non-permissible income received by the Fund will be based on the Index provider's calculation to ensure consistency with the Index. Neither the Fund, the Manager nor the Investment Manager is responsible for the Index provider's calculation of the level of non-permissible income.

Redemption and Dealing of Shares:

The Fund's shares are listed on one or more Stock Exchange(s). Investors can buy or sell shares daily through an intermediary directly or on Stock Exchange(s) on which the shares are traded. In exceptional circumstances investors will be permitted to redeem their shares directly from the Umbrella Fund in accordance with the redemption procedures set out in the prospectus, subject to any applicable laws and relevant charges.
