Tracking Error Analysis

Anticipated Ranges for the Funds

The chart on the table below lists levels of tracking errors ranges for the current products listed in Europe utilised by the Investment Manager.

The Investment Manager will periodically revisit the "minimum" and "maximum" of each Fund to make sure it is still reasonable as well as alternative measurements to gauge tracking accuracy. The ranges are identical to those used for Invesco US-listed funds.

^ FACH, FAEU and FAGB tracking error is considered normal. Due to the size of the Fund it is very difficult to match the index exactly. One of the main components is VIX futures which are very volatile and create this tracking error.

Tracking Difference is defined as the difference between the portfolio returns and the index returns. These differences are highlighted on page 8.

Tracking error is defined as the standard deviation of the monthly differences between the portfolio and benchmark returns over a given time period (YTD, 1 year, 2 years, 3 years, since inception, etc.). These are highlighted above.

Causes of Tracking Error

ETFs, like index Funds, are designed to track a specific market segment, investment theme or widely followed benchmark. Since they are passive in nature, tracking error for an ETF should be low or non-existent in theory. The causes of tracking error for ETFs can include, but are not limited to the following: holdings/size of the fund, regulatory issues/constraints and cash flows and fees.

The greatest challenge for our Funds tends to be cash management due to fund size and, given the concentrated nature of some of the Funds and limited liquidity on certain securities, a modest amount of tracking error is unavoidable. The report uses at least 12 months of performance difference between Fund and index to obtain an accurate tracking error value for the Funds.

Tracking Error Analysis (continued)

Tracking Error Exception

At the direction of the Board of the Company, we have been providing a quarterly tracking error analysis using the tracking error ranges noted as a reference point. The Investment Manager will periodically revisit the "minimum" and "maximum" of each Fund to make sure it is still appropriate as well as alternative measurements to gauge tracking accuracy.

Correlation Analysis

Correlation represents the relationship between two or more variables with a value assigned between 1 and -1. Correlation is the degree to which these variables are observed to move together: if they move in the same direction, there is positive correlation; if they move in opposite directions, there is negative correlation. A value of 1 indicates they are perfectly correlated and a value of -1, means they are exact opposites. The calculated value usually falls somewhere in between indicating the degree of linear dependence between the variables. The closer the coefficient is to either 1 or -1, the stronger or weaker the correlation between the variables (in this case the Fund and index).

The table below outlines the correlation of each of the funds compared to their respective underlying indices. At least 1 year of data is beneficial when doing correlation analysis for the Funds. To get the 1 year figures, monthly data was used for the analysis.

Please see the below table for detailed correlation analysis by Fund.

5. Taxation

Under current law and practice the Company qualifies as an investment undertaking as defined in Section 739B of the Taxes Consolidation Act, 1997, as amended. On that basis, it is not chargeable to Irish tax on its income or gains.

However, Irish tax may arise on the happening of a “chargeable event”. A chargeable event includes any distribution payments to shareholders, any encashment, redemption, cancellation or transfer of shares and the holding of shares at the end of each eight year beginning with the acquisition of such shares.

No Irish tax will arise on the Company in respect of chargeable events in respect of:

- A Shareholder who is neither Irish resident nor ordinarily resident in Ireland for tax purposes, at the time of the chargeable event, provided appropriate valid declarations in accordance with the provisions of the Taxes Consolidation Act, 1997, as amended, are held by the Company or Company has been authorised by the Irish Revenue to make gross payments in the absence of appropriate declarations; and
- Certain exempted Irish tax resident shareholders who have provided the Company with the necessary signed statutory declarations.

Dividends, interest and capital gains (if any) received on investments made by the Company may be subject to withholding taxes imposed by the country from which the investment income/gains are received and such taxes may not be recoverable by the Company or its shareholders.

The Finance Act 2010 provides that the Revenue Commissioners may grant approval for investment funds marketed outside of Ireland to make payments to non-resident investors without deduction of Irish tax where no relevant declaration is in place, subject to meeting the “equivalent measures”. A company wishing to receive approval must apply in writing to the Revenue Commissioners, confirming compliance with the relevant conditions.

6. Fair value levels

Under amendments to FRS 102 – Fair Value Hierarchy Disclosures, the Company is required to classify fair value measurements using a fair value hierarchy that reflects the significance of the inputs used in making the measurements.

The fair value hierarchy has the following levels:

Level 1 - Quoted prices (unadjusted) in active markets for identical assets or liabilities;

Level 2 - Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (as prices) or indirectly (derived from prices); and

Notes to the Financial Statements (continued)

6. Fair value levels (continued)

Level 3 - Inputs for the asset or liability that are not based on observable market data (unobservable inputs).

The determination of what constitutes 'observable' requires significant judgement by the Company. The Company considers observable data to be that market data that is readily available, regularly distributed or updated, reliable and verifiable, not proprietary, and provided by independent sources that are actively involved in the relevant market.

Furthermore, for those instruments which have significant unobservable inputs (Level 3), the standard requires disclosures on the transfers into and out of Level 3, a reconciliation of the opening and closing balances, total gains and losses for the financial period split between those recognised in the Statement of Comprehensive Income and recognised through the statement of total recognised gains and losses, purchases, sales issues and settlements, and a sensitivity analysis of assumptions used in determining the fair value of Level 3 positions.

The value of securities classified as Level 1, Level 2 and Level 3 at 31 March 2022 is as follows:

8. Translation adjustment

For the purpose of combining the Financial Statements of the Funds to arrive at Total Company figures (required under Irish Company Law), the amounts in the Funds' Statement of Financial Position have been translated to US Dollar at the exchange rate ruling at 31 March 2022. The Statement of Comprehensive Income and proceeds from subscriptions and amounts paid on redemptions of redeemable participating Shares are translated at the average rates prevailing at the date of the transactions. For rates of exchange please see note 4. The notional foreign exchange loss of 31 March 2022 of USD(3,124,786) (31 March 2021: USD807,989) is due to the use of average rates as stated above and the difference in opening and closing rates in translation of opening net assets. This notional foreign exchange adjustment has no impact on the NAV of the individual Funds.

9. Efficient Portfolio Management

The Company may, on behalf of each Fund and subject to the conditions and within the limits laid down by the Central Bank of Ireland, employ techniques and instruments relating to transferable securities for efficient portfolio management purposes. Transactions for the purposes of efficient portfolio management may be undertaken with a view to achieving a reduction in risk, a reduction in costs or an increase in capital or income returns to a Fund and may not be speculative in nature. These techniques and instruments may include investments in financial derivative instruments such as futures (which may be used to manage interest rate risk), options (which may be used to achieve cost efficiencies, for example where the acquisition of the option is more cost effective than purchasing of the underlying asset), swaps and forward currency exchange contracts (both of which may be used to manage currency risk against the base currency of a Fund and/or any functional currency of a Fund). Such techniques and instruments will be utilised in accordance with the requirements of the Central Bank of Ireland. New techniques and instruments may be developed which may be suitable for use by the Company and the Company (subject as aforesaid) may employ such techniques and instruments. A Fund may enter into stock lending, repurchase and/or reverse repurchase agreements for the purposes of efficient portfolio management in accordance with the provisions of the UCITS Regulations.

Details of forward foreign exchange contracts held are reflected within the Schedule of Investments starting on page 11.

Notes to the Financial Statements (continued)

Transactions with connected persons

In accordance with Regulation 43 of the Central Bank UCITS Regulations, any transaction carried out with the Company by its promoter, manager, depositary, investment adviser and/or associated or group companies of these entities ("connected persons") must be carried out as if at arm's length. It is authorised pursuant to the European Communities (Undertaking for Collective Investments in Transferable Securities) Regulations 2011, as amended (the "UCITS Regulations") and the Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investment in Transferable Securities) Regulations 2019 (the "Central Bank UCITS Regulations"). Such transactions must be in the best interests of the shareholders. In addition to those transactions, there are also transactions carried out by connected persons on behalf of the Company to which the Directors have no direct access and in respect of which the Directors must rely upon assurances from its delegates that the connected persons carrying out those transactions do carry them out on a similar basis.

Having regard to confirmations from the Company's management and its relevant delegates, the Board of Directors of the Company is satisfied that (i) there are arrangements (as evidenced by written procedures documented by the Investment Manager) in place to ensure that the obligations described above are applied to all transactions with connected persons; and (ii) transactions with connected persons entered into during the period complied with these obligations, as attested by the Investment Manager through regular updates to the Directors. The Board of Directors is not aware of any transactions with connected persons during the six months ended 31 March 2022, other than those disclosed in these financial statements.

13. Reconciliation to the published NAV

The Funds below have exposure to Brazilian equities. In accordance with FRS 102, the Funds must recognise a provision for potential capital gains tax payable taking into consideration the unrealised positions and capital gains tax payments not reflected in the published NAV at the financial period end. These adjustments have led to the below difference between the NAV per Share as recorded in the financial statements and the published NAV per Share.

Managing the risks presented by the outbreak of Coronavirus

The spread of the coronavirus (COVID-19) disease has caused significant volatility within the global economy and financial markets. To date, the primary focus of our response has been threefold:

- to ensure the health and safety of our employees;
- to preserve our ability to serve our clients; and
- to appropriately manage client assets in a highly dynamic market environment.

Notes to the Financial Statements (continued)

14. Significant Events during the financial period (continued)

We have established cross-functional teams in each region (Americas, Asia Pacific and EMEA) that are monitoring the situation-globally and regionally. These teams, which namely include representatives from Distribution, Portfolio Management, Trading, Technology/Operations, Human Resources, Business Continuity, Compliance, are taking steps to ensure an appropriate and effective response during a highly fluid situation.

The Directors of the 13 active Funds at 31 March 2022 are actively monitoring the situation and, with the support of the investment manager, continue to manage the Fund's assets within its investment and risk parameters that have been established. The Directors will continue to review the situation in order to navigate through this period of heightened uncertainty.

During this period of market volatility as a result of COVID-19, the volume of net redemptions has not been significant. None of the Funds with large net redemptions during this period give the Board of Directors for the Company cause for concern.

Russian-Ukraine Conflict

During the period financial markets have fallen significantly due primarily to geopolitical tensions arising from Russia's incursion into Ukraine and the impact of a subsequent range of sanctions, regulations and other measures which impaired normal trading in Russian securities. As at the balance sheet date the Invesco FTSE RAFI All-World 3000 UCITS ETF, Invesco FTSE RAFI Emerging Markets UCITS ETF, Invesco FTSE RAFI Europe UCITS ETF, Invesco FTSE RAFI Emerging Markets High Dividend Low Volatility UCITS ETF and Invesco FTSE RAFI UK 100 UCITS ETF had zero exposure to companies whose principle activities are in Russia.

Brexit

Pursuant to the European Referendum Act 2015, a referendum on the UK's membership of the EU was held on 23 June 2016 with the majority voting to leave the EU.

On 29 March 2017, the UK Government exercised its right under Article 50 of the Treaty of the European Union and officially notified the EU of the United Kingdom's intention to withdraw from the EU.

The UK consequently left the EU on 31 January 2020 and entered into a transition period which lasted until 31 December 2020. The transition period ended with arrangements in place between the UK and the Member States of the EU.

The Manager does not believe that Brexit presents significant issues that cannot be mitigated given that the Funds are domiciled in Ireland and can still passported into Europe (ex UK) and are all currently registered for marketing into the UK under the FCA's Temporary Passporting Regime (TPR).

Core counterparties of and service providers to the Company have contingency arrangements available as necessary to ensure that activities can continue with minimal disruption. The Manager has plans to ensure that the Funds will continue to be recognised for sale in the UK once the TPR ends. The Manager is part of a global group and has been committed for many years to meeting clients' needs across Europe in both EU and non-EU countries.

The change in the UK's status from an EU to a non-EU country has not changed the group's focus or commitment to serve its clients across Europe. The Manager is monitoring developments closely, through a Brexit Steering Committee, to ensure that the impact on clients and the Company is minimal.

Apart from the above there were no other significant events during the financial period that require disclosure in the financial statements.

15. Significant Events after the financial period end date

Effective 4 April 2022, an updated Prospectus for the Company was issued to reflect the name change on Invesco Euro Cash 3 Months UCITS ETF.

There were no other significant events after the financial period end date that required to be disclosed in the financial statements.

16. Approval of Financial Statements

The Directors approved the financial statements on 17 May 2022.
