Invesco Asia Dragon Trust plc Strengthens Management Team with Appointment of Marc Ye

London, 24 July 2026 – Invesco has announced the appointment of Marc Ye as a co-manager of the Invesco Asia Dragon Trust plc, effective 1 August 2026. He will join existing managers Fiona Yang and Ian Hargreaves as part of the Trust's ongoing commitment to strengthening investment expertise and developing talent within its Asia & Emerging Markets Equities team.

Marc Ye has eight years of industry experience and has been a member of Invesco's Asia & Emerging Markets Equities team for five years. He has played an increasingly influential role in portfolio management and stock selection across Asian equity portfolios. The appointment recognises his strong contribution to the team's research effort, investment insight and portfolio management capabilities.

Commenting on the appointment, **Neil Rogan, Chairman of the Trust**, said: "I am pleased to announce that from 1 August 2026 we are appointing Marc Ye as a third co-manager for the Company. Fiona and Ian will retain their roles as lead and senior co-manager respectively. Invesco are keen to commit additional investment talent and resources to this Company, so this is all about strengthening and deepening the team for the compelling opportunities that the Board sees ahead. Marc has been a longstanding member of the Invesco team, with deep experience across Asian equities and a thorough understanding of the investment philosophy and process that underpin the strategy."

Investment risks
The value of investments and any income will fluctuate (this may partly be the result of exchange rate fluctuations) and investors may not get back the full amount invested.

The product invests in emerging and developing markets, where difficulties in relation to market liquidity, dealing, settlement and custody problems could arise.

The use of borrowings may increase the volatility of the NAV and may reduce returns when asset values fall.

The product uses derivatives for efficient portfolio management which may result in increased volatility in the NAV.
