

Investment Grade Income Trust, 20+ Year Series 30

A Taxable Fixed Income Unit Trust

Trust specifics

Series information

(As of the close of business on the deposit date)

Public offering price per unit	\$997.22
Par value per unit*	\$821.84
Average weighted maturity	26 years
Minimum credit rating of underlying securities†	BBB-/Baa3
Sales charge	4.90%
Payment	Monthly
Estimated current return ¹	4.67%
Estimated long-term return ¹	4.27%
Initial interest distribution per unit	\$3.75
Subsequent interest distributions per unit ²	\$3.88
Estimated net annual income per unit	\$46.56

* Represents the principal amount of the underlying bonds per unit as of the close of business on the trust's deposit date. Subsequently, bonds may be sold to meet redemptions, to pay expenses, and in other limited circumstances. The sale of bonds will affect the principal amount of bonds included in the trust and as a result the principal amount of bonds per unit. There can be no assurance that a unitholder will receive this par value per unit subsequent to the deposit date.

† Reflects the minimum credit quality of underlying securities in the portfolio as rated by S&P and Moody's, when available. Not all bonds are rated by both services. Although the bonds in the portfolio are rated at or above the minimum credit quality as of date of deposit, each bond's rating may change after its inclusion in the trust.

Monthly CUSIP	46136C-68-1
Wrap CUSIP	46136C-69-9
Symbol	IGLT30
NASDAQ Symbol	VGOMSX
Deposit date	09/06/12
Distribution date monthly	25th of each month beginning 10/25/12
Record date monthly	10th of each month beginning 10/10/12

Breakpoint information

Transaction amount**	Sales Charges	Est. Current Return ¹	Est. Long-Term Return ¹
Fewer than 100 units	4.90%	4.67%	4.27%
100 - 249 units	4.50	4.69	4.30
250 - 499 units	4.30	4.70	4.31
500 - 999 units	3.50	4.74	4.37
1,000 - 2,999 units	3.00	4.76	4.40
3,000 - 4,999 units	2.50	4.78	4.44
5,000 or more units	1.75	4.82	4.49
Wrap fee	0.90	4.86	4.55

** The breakpoint discounts are also applied on a dollar basis using a breakpoint equivalent of \$1,000 per unit and are applied on whichever basis is more favorable to the investor.

1 These estimates are calculated as of the close of business on the deposit date and will vary thereafter. Estimated current return shows the estimated interest distributions you are scheduled to receive each year divided by the unit price. Estimated long term return shows the estimated return over the estimated life of the trust. We base this estimate on an average of the bond yields over their estimated life. This estimate also reflects the sales charge and estimated expenses. The average yield for the portfolio is derived by weighting each bond's yield by its value and estimated life. Unlike estimated current return, estimated long term return accounts for maturities, discounts and premiums of the bonds. These estimates show a comparison rather than a prediction of returns. No return calculation can predict your actual return. Your actual return may vary from these estimates. Current estimates are available at www.invesco.com/unittrust.

Objective

The trust seeks to provide a high level of current income and to preserve capital. The trust invests in a portfolio of 20+ year corporate bonds and taxable municipal bonds, including Build America Bonds, Qualified School Construction Bonds, Qualified Energy Conservation Bonds and Clean Renewable Energy Bonds (collectively "Qualified Bonds").

Portfolio diversification (% of par value)

As of the opening of business on the deposit date

- Municipal bonds 60%**
 - General obligation 18%
 - Transportation 16%
 - General purpose 10%
 - Retail electric/gas/telephone 5%
 - Airport 4%
 - Utilities 3%
 - Certificate of participation 2%
 - Public education 1%
 - Higher education 1%
- Corporate bonds 40%**
 - Consumer discretionary 13%
 - Financials 12%
 - Telecommunication services 4%
 - Information technology 4%
 - Materials 4%
 - Consumer staples 3%

Invesco helped pioneer the tax-exempt unit trust in 1976. Since then, we have consistently offered fixed income trusts and now boast a large family of tax-exempt and taxable income trusts.

Over 5,000 fixed income unit trusts have deposited—with over \$43.0 billion in initial deposits as of June 30, 2012.

Why consider the Investment Grade Income Trust, 20+ Year Series?

Take advantage of a portfolio of taxable bonds through a convenient and efficient way of purchasing a professionally selected and diversified portfolio of investment grade bonds.

- A defined and diversified portfolio of investment grade corporates and taxable municipals³
- Low minimum investment of approximately \$1,000
- Suitable for tax sheltered vehicles like IRAs
- Yields may be higher than U.S. treasury bonds with comparable maturities⁴
- Provides diversification of taxable bonds

2 The amount is based on estimated cash flows per Unit and that the amount will vary with changes in expenses, interest rates and maturity, call or sale of bonds.
 3 The bonds in the portfolio are generally rated BBB- or higher by Standard & Poor's or Baa3 or higher by Moody's as of the date of deposit.
 4 Unlike Treasury bonds, the bonds the trust invests in are not guaranteed by the U.S. government as to the timely payment of principal and interest, and therefore are subject to greater risk.
 Diversification does not guarantee a profit or eliminate the risk of loss.

"NR" indicates that the rating agency did not rate that particular issue.
"S.F." indicates a sinking fund is established with respect to an issue of bonds.

The trust portfolio is provided for informational purposes only and should not be deemed as a recommendation to buy or sell the individual securities shown above. Invesco's history of offering unit investment trusts was acquired through its predecessor firm, Van Kampen Funds Inc., in June 2010 by Invesco Ltd. Invesco unit investment trusts are distributed by the sponsor, Van Kampen Funds Inc., and broker dealers including Invesco Distributors, Inc. Both firms are wholly owned, indirect subsidiaries of Invesco Ltd.

Risk considerations

There is no assurance that a unit investment trust will achieve its investment objective. An investment in this unit trust is subject to market risk, which is the possibility that the market values of securities owned by the trust will decline and that the value of trust units may therefore be less than what you paid for them. This trust is unmanaged. Accordingly, you can lose money investing in this trust.

An investment in a trust should be made with the understanding of the risks associated therewith, such as the inability of the issuer or an insurer to pay the principal of or interest on a bond when due, volatile interest rates, early call provisions and changes to the tax status of the bonds. In particular, Qualified School Construction Bonds may be redeemed approximately three years after issuance to the extent an issuer has unexpended bond sale proceeds.

Investments in a trust may be subject to interest rate risk. If interest rates rise, the value of the bonds in a trust may decline and if interest rates decline the value of the bonds may increase. Also, the longer the period to maturity, the greater the sensitivity to interest rate changes tends to be.

The trust portfolio is concentrated in bonds issued by issuers located in the state of California. The trust is more susceptible to political, economic, regulatory, or other factors affecting issuers of California municipal securities than a trust that is not concentrated in such issues. The state of California is currently in the midst of a slow recovery from the recent economic recession. This recovery, however, has been modest and uneven, limited by continued high unemployment, among other factors.

Should the issuer of a Build America Bond or Qualified School Construction Bond fail to continue to meet the applicable requirements imposed on the bonds as provided by the American Recovery & Reinvestment Act of 2009, it is possible that such issuer may not receive federal cash subsidy payments, impairing the issuer's ability to make scheduled interest payments.

The trust may concentrate in bonds of a particular type of issuer. This makes the trust less diversified and subject to greater risk than a more diversified portfolio.

Invesco and its representatives do not provide tax advice. Individuals should consult their personal tax advisors before making any tax-related investment decisions.

A credit rating is an assessment provided by a nationally recognized statistical rating organization (NRSRO) of the creditworthiness of an issuer with respect to debt obligations, including specific securities, money market instruments or other debts. Ratings are measured on a scale that generally ranges from AAA/Aaa (highest) to D/C (lowest); ratings are subject to change without notice. For more information on Standard and Poor's rating methodology, please visit www.standardandpoors.com and select 'Understanding Ratings' under Rating Resources on the homepage or Moody's at www.moody's.com and select 'Rating Methodologies' under Research and Ratings on the homepage.

NOT FDIC INSURED | MAY LOSE VALUE | NO BANK GUARANTEE

Before investing, investors should carefully read the prospectus and consider the investment objectives, risks, charges and expenses. For this and more complete information about the trust, investors should ask their advisor(s) for a prospectus or download one at invesco.com/unittrust.
