1 iMoneyNet, Inc. is an independent mutual fund performance monitor. The Tax-Free National Retail Category is an unmanaged group of money market funds with similar investment objectives and pricing structures as the Reserve Class of the Invesco Tax-Free Cash Reserve Portfolio. iMoneyNet performance figures represent the category average. An investment cannot be made into the category.

2 A credit rating is an assessment provided by Nationally Recognized Statistical Ratings Organization (NRSRO) of the creditworthiness of an issuer with respect to debt obligations, including specific securities, money market instruments or other debts. Fund ratings are subject to change and are based on several factors, including an analysis of a portfolio's overall credit quality, market price exposure and management. Fund ratings are provided to indicate the creditworthiness of the underlying holdings in the portfolio and offer a forward-looking opinion about fixed income funds' capacity to maintain stable principal (net asset value). The ratings will generally range from AAA (highest) to D (lowest). For more information on rating methodologies, please visit www.standardandpoors.com and select "Understanding Ratings" under Rating Resources on the homepage.

3 S&P credit quality ratings reflect the ratings of the underlying securities in the portfolio and are subject to change without notice. A-1 represents the highest rating assigned indicating that the degree of safety regarding timely payment is strong. Securities that possess extremely strong safety characteristics are denoted with a plus sign (+) designation.

4 Portfolio composition is subject to change. An investment category listed with "other" in the name indicates that the underlying holdings did not fall into the SEC's more narrowly defined investment categories.

Income may be subject to federal alternative minimum tax and state and local taxes.

Yields (%)

as of March 31, 2023

The performance data quoted represents past performance. Past performance does not guarantee future results and current performance may be lower or higher than the performance data quoted above. The investment return and principal value of your investment will fluctuate so that your shares, when redeemed, may be worth more or less than their original cost. You may obtain performance data current to the most recent month-end by visiting invesco.com. The SEC yield listed reflects fee waivers and/or expense reimbursements in effect for the period. Had the Adviser not waived fees and/or reimbursed expenses, your 7-day SEC yield would have been 2.78%. Average annual total returns reflect reinvested distributions, net of expenses for the periods. The 7-day SEC yield more closely reflects the current earnings of the fund than the total returns shown.
