<sup>1</sup>Average Cost is not available for all funds. Please refer to your fund's prospectus for information about the methods available. The Average Cost method can be revoked, and replaced with another method, up to the time of the first disposition of covered shares. After the first disposition of covered shares has occurred, then a change from the Average Cost method is effective only for the shares acquired after the change was made. Shares acquired prior to the change will retain the previously averaged cost per share for the purpose of calculating the gain or loss at the time of sale.
