State tax information

Most states do not tax interest derived from US government obligations. However, states vary in the definition of federal interest, and certain states have special requirements. States vary on treatment of these dividends. Table 1 shows the percentage of ordinary income dividend on your Form 1099-DIV derived from US Treasury notes, bills and bonds.

Some states assess an intangibles tax but exempt the portion of share value that is represented by certain securities. Table 2 shows the percentage of such securities in the portfolios as of December 31, 2017.
