2. Composite information for Invesco Cornerstone Series: Total Beta SMA Wrap Composites is representative of Invesco Cornerstone Series: Total Beta 20 SMA Wrap Composite, Invesco Cornerstone Series: Total Beta 30 SMA Wrap Composite, Invesco Cornerstone Series: Total Beta 40 SMA Wrap Composite, Invesco Cornerstone Series: Total Beta 50 SMA Wrap Composite, Invesco Cornerstone Series: Total Beta 60 SMA Wrap Composite, Invesco Cornerstone Series: Total Beta 70 SMA Wrap Composite, and Invesco Cornerstone Series: Total Beta 80 SMA Wrap Composite. Invesco Cornerstone Series: Total Beta SMA Wrap Composites include all discretionary accounts styled after the corresponding Invesco Cornerstone Series: Total Beta Model Portfolio. The portfolios seek to achieve higher risk-adjusted returns within predefined levels of risk, over a full market cycle, through strategic asset class allocations for each portfolio. The portfolios offer broad diversification across asset and sub-asset classes, and investment factors. They also provide a cost-conscious solution with low-cost exchange-traded funds, and fewer holdings with lower turnover. For all periods, the composites were composed of 100% non-feex paying discretionary institutional accounts. The composites are managed in comparison to, not duplication of, the representative benchmarks. The composites were created on October 1, 2017.

3. *"Pure" gross of fees returns reflect the deduction of trading costs but do not reflect any other expenses, outside of the operational expenses listed on page 1, and are supplemental to net returns. Performance results are presented both net and gross of total wrap fees. Net returns reflect the deduction of the maximum total wrap fee, which is currently 2.00% per annum or 0.1667% monthly, from the "pure" gross return. A model fee is the highest wrap fee a client could pay (2.00% annually as charged by the program sponsor). The total wrap fee includes all charges for trading costs, portfolio management, custody and other administrative fees. The standard wrap fee schedule currently in effect is as follows: 2.00% on total assets. Actual fees may vary depending on, among other things, the applicable fee schedule and portfolio size.

4. The Invesco Multi-Asset Custom Indexes are comprised of an allocation to MSCI All Country World Index (ACWI) Net Return and Bloomberg Barclays U.S. Aggregate Total Return Index Unhedged, in percentages consistent with the equity and fixed income allocation of each representative portfolio and is rebalanced daily. The MSCI ACWI captures large and mid-cap securities exhibiting overall growth style characteristics across Developed Markets countries and Emerging Markets countries. The Bloomberg Barclays U.S. Aggregate Index covers U.S. investment-grade fixed-rate bonds with component for government and corporate securities, mortgage-pass throughs, and asset-backed securities.

5. Valuations and portfolio total returns are computed and stated in U.S. Dollars and are gross of nonreclaimable withholding tax, if applicable.
