Overall Morningstar Rating™

World Small/Mid Stock Category,
Class A Shares

World Small/Mid Stock Category,
Class Y shares

Morningstar ratings are based on a risk-adjusted return measure that accounts for variation in a fund's monthly performance, placing more emphasis on the downward variations and rewarding consistent performance.

Open-end mutual funds and exchange-traded funds are considered a single population for comparison purposes. Ratings are calculated for funds with at least a three-year history. The overall rating is derived from a weighted average of three-, five-, and 10-year rating metrics, as applicable, excluding sales charges and including fees and expenses. Had fees not been waived and/or expenses reimbursed currently or in the past, the Morningstar rating would have been lower. Class A shares received 5 stars for the overall, 5 stars for the three years, 5 stars for the five years, and 4 stars for the 10 years. Class Y shares received 5 stars for the overall, 5 stars for the three years, 5 stars for the five years, and 5 stars for the 10 years. **The fund was rated among 121, 121, 90, and 56 funds within the Morningstar World Small/Mid Stock category for the overall period, three, five and 10 years, respectively.** Morningstar ratings are as of March 31, 2019, the most recent data available, and are subject to change every month. The top 10% of funds in a category receive five stars, the next 22.5% four stars, the next 35% three stars, the next 22.5% two stars and the bottom 10% one star. Ratings for other share classes may differ due to different performance characteristics.

A high conviction portfolio with historically strong results

Category Leading Returns

+ **A history of adding value:** The fund is one of the best performers in the Morningstar World Small/Mid Stock category for the trailing 3-, 5-, 10-, 15-, and 20-year periods ended 3/31/19.¹

Differentiated Portfolio

+ **Benchmark-independent approach:** The team's high-conviction strategy can complement your current portfolios through its combination of lower correlation to the MSCI ACWI (based on trailing 5-year correlation)³ and strong returns relative to this index and its peer group average.

Over two decades of adding value

Since portfolio manager Frank Jennings' inception, the fund has returned nearly 3x the MSCI ACWI.

About Risk

Foreign investments may be volatile and involve additional expenses and special risks, including currency fluctuations, foreign taxes, regulatory and geopolitical risks.

Emerging and developing market investments may be especially volatile.

Eurozone investments may be subject to volatility and liquidity issues.

Investments in securities of growth companies may be volatile.

Mid-sized company stock is typically more volatile than that of larger company stock. It may take a substantial period of time to realize a gain on an investment in a mid-sized company, if any gain is realized at all.

Fixed income investing entails credit and interest rate risks. When interest rates rise, bond prices generally fall, and the Fund's share prices can fall. Below-investment-grade ("high yield" or "junk") bonds are more at risk of default and are subject to liquidity risk.

Diversification does not guarantee profit or protect against loss.

Performance quoted is past performance and cannot guarantee comparable future results; current performance may be lower or higher. Visit oppenheimerfunds.com for the most recent month-end performance. Performance figures reflect reinvested distributions and changes in net asset value (NAV). Investment return and principal value will vary so that you may have a gain or a loss when you sell shares. Had fees not been waived and/or expenses reimbursed in the past, returns would have been lower. Performance shown at NAV does not include the applicable front-end sales charge, which would have reduced the performance. Class Y shares have no sales charge; therefore, performance is at NAV. Performance shown prior to the inception date of Class Y shares is that of Class A shares and includes the 12b-1 fees applicable to Class A shares. Class Y shares are available only to certain investors. See the prospectus for more information. As the result of a reorganization on May 24, 2019, the returns of the fund for periods on or prior to May 24, 2019 reflect performance of the Oppenheimer predecessor fund. Share class returns will differ from the predecessor fund due to a change in expenses and sales charges.
