Factor investing with Invesco

Investment factors are characteristics that help drive the risk and return of a stock or a bond, and different factors have historically outperformed the broad market in different types of environments.

At Invesco, we provide a complete offering of factor-based tools, thought leadership and solutions. We have created a wide range of single-factor and multi-factor strategies to give advisors the ability to build client portfolios with precise exposures targeted to their specific needs.

About Risk

There are risks involved with investing in ETFs including possible loss of money. Index-based ETFs are not actively managed. Actively managed ETFs do not necessarily seek to replicate the performance of a specified index. Both index-based and actively managed ETFs are subject to risk similar to stocks, including those related to short selling and margin maintenance. Ordinary brokerage commissions apply. The funds are subject to certain other risks. Please see the current prospectus for more information regarding the risk associated with an investment in the funds.

Factor investing is an investment strategy in which securities are chosen based on certain characteristics and attributes.

NOT FDIC INSURED | MAY LOSE VALUE | NO BANK GUARANTEE

Before investing, investors should carefully read the prospectus/summary prospectus and carefully consider the investment objectives, risks, charges and expenses. For this and more complete information about the Fund call 800 983 0903 or visit [invesco.com](https://www.invesco.com) for the prospectus/summary prospectus.
