Some of the risks involved with equities include the possibility that the value of the stocks may fluctuate in response to events specific to the companies or markets, as well as economic, political or social events in the U.S. or abroad. Bonds are subject to interest rate, inflation, and credit risks. Investments in high-yield bonds may be subject to greater market fluctuations and risk of loss of income and principal than securities in higher rated categories. Investments in foreign securities (including ADRs) involve special risks, including foreign currency risk and the possibility of substantial volatility due to adverse political, economic, or other developments. These risks are magnified for investments made in emerging markets. Investments in a certain industry or sector may pose additional risk due to lack of diversification and sector concentration. Investments in real estate securities can be subject to fluctuations in the value of the underlying properties, the effect of economic conditions on real estate values, changes in interest rates, and risk related to renting properties, such as rental defaults. There are special risks associated with an investment in commodities, including market price fluctuations, regulatory changes, interest rate changes, credit risk, economic changes, and the impact of adverse political or financial factors. ETF Risk Considerations: ETFs are subject to certain risks that may affect the price, yield, total return and ability to meet its investment objectives, including general market risks; a particular asset class risk; the fact the funds in the ETF are typically passively managed; concentrations in a particular industry or region and; market trading risks (e.g., a lack of market liquidity and trading at prices at or above their NAV). For a discussion of the risks specific to a particular ETF, please refer to the ETF's prospectus. ETF shares may trade at a premium or discount to NAV. ETFs may be subject to management fees, transaction costs or expenses.

1. The Invesco Strategic Focused ETF 20/80 Portfolio Wrap Composite includes all discretionary accounts styled after the Invesco Strategic Focused ETF 20/80 Model Portfolio. The portfolio seeks to achieve higher risk-adjusted returns, over a full market cycle, through strategic asset class allocations that target a predefined level of risk, which targets 20% Equity and 80% Fixed Income. The portfolio offers broad diversification across asset and sub-asset classes and investment factors. It also provides a cost-conscious solution with low-cost exchange-traded funds, and fewer holdings with lower turnover. For periods beginning June 1, 2024, the composite is composed of 100% non-fee paying discretionary wrap accounts. Prior to June 1, 2024, the composite was composed of 100% non-fee paying discretionary institutional accounts. The historical performance results are those of the Invesco Strategic Focused ETF 20/80 Portfolio Institutional Composite. The composite is managed in comparison to, not duplication of, the benchmark. The composite was created in October 2017.
2. "Pure" gross of fees returns reflect the deduction of trading costs but do not reflect any other expenses, and are supplemental to net returns. Performance results are presented both net and gross of total wrap fees. Assets invested in the portfolio through a wrap fee advisory program will pay an annual fee to the investment adviser that sponsors the wrap fee program. For periods beginning June 1, 2020, the net performance data shown represents the actual "pure" gross composite performance of the investment portfolio reduced by a model annual fee of 1.74%, the maximum annual fee charged by Primerica Advisors to clients invested in the model through the Lifetime Investment Platform wrap fee program. Prior to June 1, 2020, the net performance data shown represents the actual "pure" gross composite performance of the investment portfolio reduced by a model annual fee of 1.77%.
3. The Invesco HCB Multi Asset 20/80 Linked Index is comprised of 16% MSCI ACWI All Cap Net Return Index / 4% Russell 3000 Index / 8% Bloomberg Short Treasury Index / 60% Bloomberg US Aggregate Bond Index / 8% Bloomberg US Corporate High Yield Index / 4% JP Morgan EMBI Global Diversified Index; and is rebalanced daily. Prior to October 1, 2024, the benchmark was 20% MSCI All Country World Index (ACWI) Net Return (NR) and 80% Bloomberg U.S. Aggregate Total Return (TR) Index Unhedged. The benchmark is used for comparative purposes only and generally reflects the risk or investment style of the product. For comparison purposes the index is fully invested, which includes the reinvestment of income. The returns for the index do not include any transaction costs, management fees or other costs.
4. For investors that access strategies through the Primerica Advisors Lifetime Investment Program, Primerica Advisors or its service providers, not Invesco, is responsible for implementing the strategy in your account. Gross performance of the strategy, as implemented by Primerica Advisors, will vary from Invesco's composite performance. Net performance for individual investors will vary based on the fees charged by Primerica Advisors, as well as Primerica Advisors' management of its program and each client's account.

**Past performance is not indicative of future results. As with any investment vehicle there is always the potential for gains as well as the possibility of losses.**
