### Why is Invesco Developing Markets Fund (the “Fund”) reopening to all investors?

Invesco continuously and carefully evaluates the changing market environment and the level of the Fund's AUM and overall Strategy AUM<sup>1</sup> (as of January 31, 2023, \$26.2 billion and \$29.6 billion, respectively). We currently believe there are attractive opportunities that align with our fundamental investment process and that reopening the Fund at the present time is in the best interest of clients.

The Fund's investment management team will continue to monitor market conditions and opportunities affecting ongoing capacity. If conditions warrant, the team may choose to close the Fund at a future date.

On behalf of Invesco, we would like to thank you for investing with us. We believe we have built a business focused on meeting the needs of our investors. Today, we view ourselves as one of the strong, industry-tenured leaders dedicated to investment excellence and providing solutions that may help investors pursue their long-term goals. Please feel free to contact your Invesco relationship manager for more information.

<sup>1</sup> Strategy AUM includes Fund AUM. Strategy AUM includes all registered, non-registered and sub-advised and separate account portfolios using the Emerging Market Equity strategy approach.
