Performance quoted is past performance and cannot guarantee comparable future results; current performance may be lower or higher. Visit [invesco.com/performance](https://www.invesco.com/performance) for the most recent month-end performance. Performance figures reflect reinvested distributions and changes in net asset value (NAV). Investment return and principal value will vary, and you may have a gain or a loss when you sell shares. Cash Reserve shares are sold without initial sales charge and are not subject to a CDSC. Class Y shares have no sales charge; therefore, performance is at NAV. Class R shares have no sales charge; therefore, performance is at NAV. Returns less than one year are cumulative; all others are annualized. Performance shown prior to the inception date of Class R6 shares is that of Class A shares and includes the 12b-1 fees applicable to Class A shares. Class R6 shares have no sales charge; therefore, performance is at NAV. On June 28, 2016, the fund's principal investment strategy and benchmarks changed from a prime to a government money market fund. For more information about the changes, please see the fund's prospectus. Results prior to June 28, 2016 reflect the performance of the fund's previous strategy. Fund performance reflects any applicable fee waivers and/or expense reimbursements. Had the adviser not waived fees and/or reimbursed expenses currently or in the past, returns would have been lower. See current prospectus for more information. Index returns do not reflect any fees, expenses, or sales charges. Index source: Lipper, Inc.

The U.S. 3-Month Treasury Bill Index is tracked by Lipper to provide performance for the three-month US Treasury bill. An investment cannot be made directly in an index.

Weighted average life (WAL), as it applies to money market funds, is calculated in the same manner as the WAM, but is based solely on the periods of time remaining until the securities held in the fund's portfolio (a) are scheduled to be repaid or (b) would be repaid upon a demand by the fund without reference to when interest rates of securities within the fund are scheduled to be readjusted. **Weighted average effective maturity (WAM)** is a measure, as estimated by the fund's portfolio managers, of the length of time the average security in a bond fund will mature or be redeemed by its issuer. It takes into account mortgage prepayments, puts, adjustable coupons and potential call dates.

Pursuant to SEC Rule 2a-7, the fund is required to maintain at least 10% of its total assets in "1-day Liquidity" and at least 30% of its total assets in "7-day Liquidity" each time a security is acquired. 1-day liquidity assets include cash, direct US Government obligations and securities that will mature or are subject to a demand feature that is exercisable and payable within one business day; 7-day liquidity assets include cash, direct US Government obligations, Government securities that are issued at a discount to the principal amount to be repaid at maturity and have a remaining maturity of 60 days or less and securities that will mature or are subject to a demand feature that is exercisable and payable within five business days.

Lipper rankings (as of Feb. 29, 2024)

Cash Reserve Shares

Source: Lipper Inc. **Lipper fund percentile rankings are based on total returns, excluding sales charges and including fees and expenses**, and are versus all funds in the Lipper category. Fund performance reflects any applicable fee waivers and/or expense reimbursements. Had fees not been waived and/or expenses reimbursed currently or in the past, the ranking would have been lower.

About risk

You could lose money by investing in the Fund. Although the Fund seeks to preserve your investment at \$1.00 per share, it cannot guarantee it will do so.
