Disclosures

This does not constitute a recommendation of any investment strategy or product for a particular investor. Investors should consult a financial professional before making any investment decisions.

The DB Funds are not suitable for all investors due to the speculative nature of an investment based upon the Funds’ trading which takes place in very volatile markets. Because an investment in futures contracts is volatile, such frequency in the movement in market prices of the underlying future contracts could cause large losses. See the Prospectus for risk disclosures.

Commodities and futures generally are volatile and are not suitable for all investors.

The value of the Shares of the Funds relate directly to the value of the futures contracts and other assets held by the Funds and any fluctuation in the value of these assets could adversely affect an investment in the Funds’ Shares.

Please review the prospectus for break-even figures for the Funds.

The DB Funds are speculative and involve a high degree of risk. An investor may lose all or substantially all of an investment in the Funds.

The DB Funds are not mutual funds or any other type of Investment Company within the meaning of the Investment Company Act of 1940, as amended, and is not subject to regulation thereunder.
