
Federal alternative minimum tax

The federal AMT applies to individuals who enjoy certain tax benefits, such as large deductions or exclusions from income. This tax prevents those individuals from avoiding a minimum tax liability on their income. Federal AMT income may be found on Form 1099-DIV, Box 12.

If your tax-exempt fund invests in certain private activity bonds, you could be subject to federal AMT. The percentage of your fund's tax-exempt income that is subject to federal AMT is outlined as follows:

- State-specific funds – See table below
- National funds – See table on next page
