# Invesco IRA to Invesco Roth IRA Conversion Form

Use this form to convert assets from an existing Invesco Traditional, SEP, SIMPLE or SARSEP IRA to an Invesco Roth IRA. We recommend that you speak with a tax advisor or financial professional regarding the consequences of this transaction.

**If you do not have an Invesco Roth IRA already established, please attach a completed Invesco Traditional or Roth IRA Application.**

**Do not use this form to:**

- Convert IRA assets from another custodian.
- Recharacterize IRA assets.
- Rollover assets from a qualified plan or 403(b) to an Invesco Roth IRA.

For more information, please see the Additional Information section.

**Important:** Required minimum distribution (RMD) is ineligible to convert to a Roth IRA. If you are 73 or older this year and are requesting a full account conversion, Invesco Investment Services, Inc. (IIS) will calculate and remove the amount of your RMD if it has not already been distributed, and send it to the address of record on the account. If your RMD has already been satisfied, please check the box below.

Please do not distribute my RMD as it has already been distributed.

**4 | Federal Income Tax Withholding Election (Select one.)**

By electing to convert all or part of your Traditional, SIMPLE, SEP or SARSEP IRA to a Roth IRA, you are making a taxable distribution, which will be subject to a default federal income tax withholding rate of 10%. You can choose to have a different rate by entering a rate between 0% and 100% in the box below. Generally, you can't choose less than 10% for payments to be delivered outside of the United States and its possessions, or if your only address of record is a P.O. Box. Any amounts withheld may be subject to an additional 10% premature penalty tax if you are under age 59½.

By providing a withholding percentage below and signing this distribution form, you acknowledge that you have read the attached IRS Form W-4R, including the complete instructions on pages 1 and 2, the Marginal Rate Tables, and you would like a rate of withholding different from the default withholding rate.

**Important:** The instructions and Marginal Rate Tables on the attached sample IRS Form W-4R are valid for the tax year shown in the upper right corner of the Form W-4R. If you are submitting this distribution form in a subsequent calendar year, please see irs.gov for the most current version of Form W-4R.

I want federal income tax withheld at the rate of  % .

**Important:** If you do not provide a rate in the box above, the default withholding rate of 10% will be applied to your conversion.

Please note that the withholding rate designation made above supersedes any previous designations. If you elect not to have withholding applied to your distributions, or if you do not have enough federal income tax withheld from your distributions, you may be responsible for payment of estimated tax. You may incur penalties under the estimated tax rules if your withholding and estimated tax payments are not sufficient.

**5 | Systematic Purchase Instructions (Select one if applicable.)**

IIS will not alter existing systematic purchase agreements unless specified below.

- Move my existing systematic purchase agreement to my Invesco Roth IRA.
- Stop my existing systematic purchase agreement on my Traditional IRA.

**Additional Information**

- A conversion is the rollover of assets from an IRA (includes Traditional, SEP, SARSEP, and SIMPLE) to a Roth IRA. The conversion is taxable to the account owner in the year of the conversion.
- Conversion assets will be processed "in kind". An "in kind" conversion is the movement of currently owned Invesco funds without liquidating. You may request an exchange separately.
- For SIMPLE IRAs, if two years have not passed since the date of the first contribution into the account, then no assets in the account can be converted to a Roth IRA.
- You will be subject to the 10% mandatory tax withholding on the amount being converted unless you make an election in section 4, Federal Income Tax Withholding Election.
- Assets converted to a Roth IRA are not eligible for recharacterization.

**Future developments.** For the latest information about any future developments related to Form W-4R, such as legislation enacted after it was published, go to [www.irs.gov/FormW4R](http://www.irs.gov/FormW4R).

**Purpose of form.** Complete Form W-4R to have payers withhold the correct amount of federal income tax from your nonperiodic payment or eligible rollover distribution from an employer retirement plan, annuity (including a commercial annuity), or individual retirement arrangement (IRA). See page 2 for the rules and options that are available for each type of payment. Don't use Form W-4R for periodic payments (payments made in installments at regular

intervals over a period of more than 1 year) from these plans or arrangements. Instead, use Form W-4P, Withholding Certificate for Periodic Pension or Annuity Payments. For more information on withholding, see Pub. 505, Tax Withholding and Estimated Tax.

**Caution:** If you have too little tax withheld, you will generally owe tax when you file your tax return and may owe a penalty unless you make timely payments of estimated tax. If too much tax is withheld, you will generally be due a refund when you file your tax return. Your withholding choice (or an election not to have withholding on a nonperiodic payment) will generally apply to any future payment from the same plan or IRA. Submit a new Form W-4R if you want to change your election.

**2025 Marginal Rate Tables**

You may use these tables to help you select the appropriate withholding rate for this payment or distribution. Add your income from all sources and use the column that matches your filing status to find the corresponding rate of withholding. See page 2 for more information on how to use this table.

## General Instructions (continued)

**Nonperiodic payments—10% withholding.** Your payer must withhold at a default 10% rate from the taxable amount of nonperiodic payments **unless** you enter a different rate on line 2. Distributions from an IRA that are payable on demand are treated as nonperiodic payments. Note that the default rate of withholding may not be appropriate for your tax situation. You may choose to have no federal income tax withheld by entering “-0-” on line 2. See the specific instructions below for more information. Generally, you are not permitted to elect to have federal income tax withheld at a rate of less than 10% (including “-0-”) on any payments to be delivered outside the United States and its territories.

**Note:** If you don’t give Form W-4R to your payer, you don’t provide an SSN, or the IRS notifies the payer that you gave an incorrect SSN, then the payer must withhold 10% of the payment for federal income tax and can’t honor requests to have a lower (or no) amount withheld. Generally, for payments that began before 2025, your current withholding election (or your default rate) remains in effect unless you submit a Form W-4R.

**Eligible rollover distributions—20% withholding.** Distributions you receive from qualified retirement plans (for example, 401(k) plans and section 457(b) plans maintained by a governmental employer) or tax-sheltered annuities that are eligible to be rolled over to an IRA or qualified plan are subject to a 20% default rate of withholding on the taxable amount of the distribution. You can’t choose withholding at a rate of less than 20% (including “-0-”). Note that the default rate of withholding may be too low for your tax situation. You may choose to enter a rate higher than 20% on line 2. Don’t give Form W-4R to your payer unless you want more than 20% withheld.

Note that the following payments are **not** eligible rollover distributions for purposes of these withholding rules:

- Qualifying “hardship” distributions;
- Distributions required by federal law, such as required minimum distributions;
- Distributions from a pension-linked emergency savings account;
- Eligible distributions to a domestic abuse victim;
- Qualified disaster recovery distributions;
- Qualified birth or adoption distributions; and
- Emergency personal expense distributions.

See Pub. 505 for details. See also *Nonperiodic payments—10% withholding* above.

**Payments to nonresident aliens and foreign estates.** Do not use Form W-4R. See Pub. 515, *Withholding of Tax on Nonresident Aliens and Foreign Entities*, and Pub. 519, *U.S. Tax Guide for Aliens*, for more information.

**Tax relief for victims of terrorist attacks.** If your disability payments for injuries incurred as a direct result of a terrorist attack are not taxable, enter “-0-” on line 2. See Pub. 3920, *Tax Relief for Victims of Terrorist Attacks*, for more details.

## Specific Instructions

### Line 1b

For an estate, enter the estate’s employer identification number (EIN) in the area reserved for “Social security number.”

### Line 2

**More withholding.** If you want more than the default rate withheld from your payment, you may enter a higher rate on line 2.

**Less withholding (nonperiodic payments only).** If permitted, you may enter a lower rate on line 2 (including “-0-”) if you want less than the 10% default rate withheld from your payment. If you have already paid, or plan to pay, your tax on this payment through other withholding or estimated tax payments, you may want to enter “-0-”.

**Suggestion for determining withholding.** Consider using the Marginal Rate Tables on page 1 to help you select the appropriate withholding rate for this payment or distribution. The tables are most accurate if the appropriate amount of tax on all other sources of income, deductions, and credits has been paid through other withholding or estimated tax payments. If the appropriate amount of tax on those sources of income has not been paid through other withholding or estimated tax payments, you can pay that tax through withholding on this payment by entering a rate that is greater than the rate in the Marginal Rate Tables.

The marginal tax rate is the rate of tax on each additional dollar of income you receive above a particular amount of income. You can use the table for your filing status as a guide to find a rate of withholding for amounts above the total income level in the table.

To determine the appropriate rate of withholding from the table, do the following. Step 1: Find the rate that corresponds with your total income not including the payment. Step 2: Add your total income and the taxable amount of the payment and find the corresponding rate.

If these two rates are the same, enter that rate on line 2. (See *Example 1* below.)

If the two rates differ, multiply (a) the amount in the lower rate bracket by the rate for that bracket, and (b) the amount in the higher rate bracket by the rate for that bracket. Add these two numbers; this is the expected tax for this payment. To get the rate to have withheld, divide this amount by the taxable amount of the payment. Round up to the next whole number and enter that rate on line 2. (See *Example 2* below.)

If you prefer a simpler approach (but one that may lead to overwithholding), find the rate that corresponds to your total income including the payment and enter that rate on line 2.

**Examples.** Assume the following facts for *Examples 1* and *2*. Your filing status is single. You expect the taxable amount of your payment to be \$20,000. Appropriate amounts have been withheld for all other sources of income and any deductions or credits.

**Example 1.** You expect your total income to be \$65,000 without the payment. Step 1: Because your total income without the payment, \$65,000, is greater than \$63,475 but less than \$118,350, the corresponding rate is 22%. Step 2: Because your total income with the payment, \$85,000, is greater than \$63,475 but less than \$118,350, the corresponding rate is 22%. Because these two rates are the same, enter “22” on line 2.

**Example 2.** You expect your total income to be \$61,000 without the payment. Step 1: Because your total income without the payment, \$61,000, is greater than \$26,925 but less than \$63,475, the corresponding rate is 12%. Step 2: Because your total income with the payment, \$81,000, is

greater than \$63,475 but less than \$118,350, the corresponding rate is 22%. The two rates differ. \$2,475 of the \$20,000 payment is in the lower bracket (\$63,475 less your total income of \$61,000 without the payment), and \$17,525 is in the higher bracket (\$20,000 less the \$2,475 that is in the lower bracket). Multiply \$2,475 by 12% to get \$297. Multiply \$17,525 by 22% to get \$3,856. The sum of these two amounts is \$4,153. This is the estimated tax on your payment. This amount corresponds to 21% of the \$20,000 payment (\$4,153 divided by \$20,000). Enter "21" on line 2.
