Word About Risk

Some of the principal risks associated with investing in this Fund include:

There is a risk that you could lose all or a portion of your investment in the Fund. The value of your investment in the fund will go up and down with the prices of the securities in which the fund invests. Listed below are the principal risks associated with investing in the Fund.

In general, stock values fluctuate, sometimes widely, in response to activities specific to the company as well as general market, economic and political conditions. The risks of investing in securities of foreign issuers, including emerging market issuers, can include fluctuations in foreign currencies, political and economic instability, and foreign taxation issues. Stocks of small and mid-sized companies tend to be more vulnerable to adverse developments, may be more volatile, and may be illiquid or restricted as to resale. Growth stocks tend to be more sensitive to changes in their earnings and can be more volatile. The Fund is subject to certain other risks. Please see the current Fund Description for more information regarding the risks associated with an investment in the Fund.

Important Information

Performance as of 12/31/2019

Gross performance has been calculated before the deduction of investment management and client service fees, but after the deduction of all other expenses applicable to the unit class. Net performance has been calculated after the deduction of all fees and expenses applicable to the unit class as well as a hypothetical management fee of 0.65%. Total return assumes reinvestment of dividends and capital gains for the periods indicated. Past performance is no guarantee of future results. Investment return and principal value will vary and you may have a gain or loss when you sell shares. Returns less than one year are cumulative; all others are annualized. Visit InvescoTrustCompany.com for most recent month-end performance.

Fees and Expenses
