15 Describe the quantitative effect of the organizational action on the basis of the security in the hands of a U.S. taxpayer as an adjustment per share or as a percentage of old basis ▶ Upon the date of the stock split, the number of Fund shares held by each shareholder were increased 900%, from what was held by each shareholder on the day immediately preceding the stock split. No fractional shares will be issued.

16 Describe the calculation of the change in basis and the data that supports the calculation, such as the market values of securities and the valuation dates ▶ The post-split (new) basis per share is equal to the pre-split basis divided by ten.
