Invesco MSCI Global Timber ETF

Fund description
The Invesco MSCI Global Timber ETF (Fund) is based on the MSCI ACWI IMI Timber Select Capped Index (Index). The Fund will invest at least 90% of its total assets in stock, American depositary receipts (ADRs), global depositary receipts (GDRs) and depositary receipts that comprise the Index. The Index measures the performance of securities engaged in the ownership and management of forests, timberlands and production of products using timber as raw materials. The index is computed using the net return, which withholds applicable taxes for non-resident investors. The Fund and the Index are rebalanced quarterly.

Returns less than one year are cumulative. Performance data quoted represents past performance. Past performance is not a guarantee of future results; current performance may be higher or lower than performance quoted. Investment returns and principal value will fluctuate and Shares, when redeemed, may be worth more or less than their original cost. See invesco.com to find the most recent month-end performance numbers. Market returns are based on the midpoint of the bid/ask spread at 4 p.m. ET and do not represent the returns an investor would receive if shares were traded at other times. Fund performance reflects fee waivers, absent which, performance data quoted would have been lower. As the result of a reorganization on April 6, 2018, the returns presented reflect performance of the Guggenheim predecessor fund. Invesco is not affiliated with Guggenheim. Please keep in mind that high, double-digit and/or triple-digit returns are highly unusual and cannot be sustained.

Fund inception: November 09, 2007
Not a Deposit Not FDIC Insured Not Guaranteed by the Bank May Lose Value Not Insured by any Federal Government Agency

Returns on Shares are not individually redeemable and owners of the Shares may acquire those Shares from the Fund and tender those Shares for redemption to the Fund in Creation Unit aggregations only, typically consisting of 50,000 Shares.

Index returns do not represent Fund returns. An investor cannot invest directly in an index. Neither the underlying Index nor the benchmark indexes charge management fees or brokerage expenses, and no such fees or expenses were deducted from the performance shown; nor do any of the indexes lend securities, and no revenues from securities lending were added to the performance shown. In addition, the results actual investors might have achieved would have differed from those shown because of differences in the timing, amounts of their investments, and fees and expenses associated with an investment in the Fund. The Beacon Global Timber Index tracks the performance of global timber companies. The index is computed using the net return, which withholds applicable taxes for non-resident investors.
Invesco MSCI Global Timber ETF is not sponsored, endorsed, sold or promoted by MSCI Inc. ("MSCI"), any of its affiliates, any of its information providers or any other third party involved in, or related to, compiling, computing or creating any MSCI index (collectively, the "MSCI parties"). The MSCI ACWI IMI Timber Select Capped Index (the "MSCI Index") is the exclusive property of MSCI. MSCI and the MSCI Index names are service mark(s) of MSCI and its affiliates and have been licensed for use for certain purposes by Invesco. None of the MSCI parties makes any representation or warranty, express or implied, to the issuer or owners of Invesco MSCI Global Timber ETF or any other person or entity regarding the advisability of investing in the Invesco MSCI Global Timber ETF generally or in the Invesco MSCI Global Timber ETF particularly or the ability of the MSCI Index to track corresponding stock market performance. MSCI or its affiliates are the licensors of certain trademarks, service marks and trade names and of the MSCI Index which is determined, composed, and calculated by MSCI without regard to the Invesco MSCI Global Timber ETF or the issuer or owners of the Invesco MSCI Global Timber ETF or any other person or entity.

Typically, security classifications used in calculating allocation tables are as of the last trading day of the previous month. The Global Industry Classification Standard was developed by and is the exclusive property and a service mark of MSCI, Inc. and Standard & Poor's.

This does not constitute a recommendation of any investment strategy or product for a particular investor. Investors should consult a financial professional before making any investment decisions.

Before investing, investors should carefully read the prospectus and consider the investment objectives, risks, charges and expenses. For this and more complete information about the fund, investors should ask their financial professionals for a prospectus or download one at invesco.com

Glossary

30 Day SEC Unsubsidized Yield reflects the 30-day yield if the investment adviser were not waiving all or part of its fee or reimbursing the fund for part of its expenses. Total return would have also been lower in the absence of these temporary reimbursements or waivers.

30 Day SEC Yield is based on a 30-day period and is computed by dividing the net investment income per share earned during the period by the maximum offering price per share on the last day of the period. Intraday NAV is a symbol representing estimated fair value based on the most recent intraday price of underlying assets.

Weighted Harmonic Average Stock Price-to-Book-Value Ratio (P/B Ratio) is the ratio of a stock's market price to a company's net asset value.

Weighted Harmonic Average Stock Price-to-Earnings Ratio (P/E Ratio) is the share price divided by earnings per share. It is measured on a 12-month trailing basis.

Weighted Average Return on Equity is net income divided by net worth.

Weighted Market Capitalization is the sum of each underlying securities market value.
