The trust portfolio is provided for informational purposes only and should not be deemed as a recommendation to buy or sell the individual securities shown above.

The style characteristics of the Portfolio are determined as of the initial date of deposit. For a complete description of these characteristics refer to the following page.

See page 2 for the footnotes on trust specifics.

Not a Deposit Not FDIC Insured Not Guaranteed by the Bank May Lose Value Not Insured by any Federal Government Agency
About risk
There is no assurance the trust will achieve its investment objective. An investment in this unit investment trust is subject to market risk, which is the possibility that the market values of securities owned by the trust will decline and that the value of trust units may therefore be less than what you paid for them. This trust is unmanaged and its portfolio is not intended to change during the trust's life except in limited circumstances. Accordingly, you can lose money investing in this trust. The trust should be considered as part of a long-term investment strategy and you should consider your ability to pursue it by investing in successive trusts, if available. You will realize tax consequences associated with investing from one series to the next.

A portfolio concentrated in a single market sector presents more risk than a portfolio broadly diversified over several market sectors. The Portfolio is concentrated in securities issued by companies in the utility industry. Companies related to the utility industry face risks such as increased competition, increases in fuel and other operating costs, governmental regulations, and natural disasters. Negative developments in the utility industry will affect the value of your investment more than would be the case in a more diversified investment.

Common stocks do not assure dividend payments. Dividends are paid only when declared by an issuer's board of directors and the amount of any dividend may vary over time. There can be no guarantee or assurance that companies will declare dividends in the future or that if declared, they will remain at current levels or increase over time.

The financial condition of an issuer may worsen or its credit ratings may drop, resulting in a reduction in the value of your Units. This may occur at any point in time, including during the initial offering period.

You could experience dilution of your investment if the size of the Portfolio is increased as Units are sold. There is no assurance that your investment will maintain its proportionate share in the Portfolio's profits and losses.

Value, blend and growth are types of investment styles. Growth investing generally seeks stocks that offer the potential for greater-than-average earnings growth, and may entail greater risk than value or blend investing. Value investing generally seeks stocks that may be sound investments but are temporarily out of favor in the marketplace, and may entail less risk than growth investing. A blend investment combines the two styles.

Why consider investing in Invesco's Utility Income Portfolio?
When you choose Invesco, you're getting a portfolio of securities selected by an experienced professional. The Utility Income Portfolio may offer:

Quality utility companies
The companies selected for the Portfolio are those that we believe to have relatively stable demand for their services, attractive free cash flow, and relatively low capital requirements.

Diversification
This Portfolio includes a diversified mix of electric, gas, water and multi-utility companies.

Monthly income potential
The Portfolio seeks to provide monthly income distributions.

Professional selection
The Portfolio includes common stocks of utility companies whose corporate debt was rated investment grade as of the time of selection, have increased dividend payments in recent years, have positive forward earnings estimates and have the potential for future dividend increases.4

Before investing, investors should carefully read the prospectus and consider the investment objectives, risks, charges and expenses. For this and more complete information about the trust, investors should ask their financial professional(s) for a prospectus or download one at invesco.com/uit.

This does not constitute a recommendation of any investment strategy or product for a particular investor. Investors should consult a financial professional before making any investment decisions.

Invesco unit investment trusts are distributed by the Sponsor, Invesco Capital Markets, Inc. and broker dealers including Invesco Distributors, Inc. Both firms are indirect, wholly owned subsidiaries of Invesco Ltd.

1 Including sales charges. As of deposit date.
2 Represents the value of 100 units on the deposit date. The value of the minimum investment amount of 100 units may be greater or less than $1,000.00 following the deposit date.
3 Assuming a public offering price of $10 per unit. There is no initial sales charge if the public offering price per unit is $10 or less. If the public offering price per unit exceeds $10, an initial sales charge is paid at the time of purchase. The per unit amount of the initial sales charge is 2.75% of the dollar amount that the public offering price per unit exceeds $10.
4 Past performance is not indicative of future results, and the payment of dividends is never assured and may vary over time.
