

Invesco ESG NASDAQ Next Gen 100 ETF

QQJG

Fund description

The Invesco ESG NASDAQ Next Gen 100 ETF (Fund) is based on the Nasdaq Next Generation 100 ESG Index (Index). The Fund will invest at least 90% of its total assets in the securities that comprise the Index. The Index is designed to measure the performance of companies included in the Nasdaq Next Generation 100 Index that also meet environmental, social and governance ("ESG") criteria. To satisfy the ESG criteria, an issuer must not be involved in certain specific business activities, such as alcohol, cannabis, controversial weapons, gambling, military weapons, nuclear power, oil & gas, and tobacco. Additionally, an issuer must be deemed compliant with the United Nations Global Compact principles, meet business controversy level requirements, and have an ESG Risk Rating Score that meets the requirements for inclusion in the Index. The Fund and Index are rebalanced quarterly and quarterly in March, June, September, and December.

Returns less than one year are cumulative. Performance data quoted represents past performance. Past performance is not a guarantee of future results; current performance may be higher or lower than performance quoted. Investment returns and principal value will fluctuate and Shares, when redeemed, may be worth more or less than their original cost. See [invesco.com](https://www.invesco.com) to find the most recent month-end performance numbers. Market returns are based on the midpoint of the bid/ask spread at 4 p.m. ET and do not represent the returns an investor would receive if shares were traded at other times. Please keep in mind that high, double-digit and/or triple-digit returns are highly unusual and cannot be sustained.

Index returns do not represent Fund returns. An investor cannot invest directly in an index.

Neither the underlying Index nor the benchmark indexes charge management fees or brokerage expenses, and no such fees or expenses were deducted from the performance shown; nor do any of the indexes lend securities, and no revenues from securities lending were added to the performance shown. In addition, the results actual investors might have achieved would have differed from those shown because of differences in the timing, amounts of their investments, and fees and expenses associated with an investment in the Fund.

¹The NASDAQ Composite Index measures all NASDAQ domestic and international-based common stocks listed on The Nasdaq Stock Market.

Investment risks

There are risks involved with investing in ETFs, including possible loss of money. Shares are not actively managed and are subject to risks similar to those of stocks, including those regarding short selling and margin maintenance requirements. Ordinary brokerage commissions apply. The Fund's return may not match the return of the Underlying Index. The Fund is subject to certain other risks. Please see the current prospectus for more information regarding the risk associated with an investment in the Fund.

Investments focused in a particular sector, such as information technology, are subject to greater risk, and are more greatly impacted by market volatility, than more diversified investments.

Stocks of companies with favorable ESG attributes may underperform the market as a whole. As a result, the Fund may underperform other funds that do not screen companies based on ESG attributes. The criteria used to select companies for investment may result in the Fund investing in securities, industries or sectors that underperform the market as a whole or underperform other funds screened for ESG standards.

The Fund is non-diversified and may experience greater volatility than a more diversified investment.

The risks of investing in securities of foreign issuers can include fluctuations in foreign currencies, political and economic instability, and foreign taxation issues.

Important information

The Invesco ESG NASDAQ Next Gen 100 ETF is not sponsored, endorsed, sold or promoted by the NASDAQ OMX Group, Inc. or its affiliates (NASDAQ OMX, with its affiliates, are referred to as the "Corporations"). The Corporations have no liability in connection with the administration, marketing or trading of the Invesco ESG NASDAQ Next Gen 100 ETF. "NASDAQ®" is a registered trademark and is used under license.

Typically, security classifications used in calculating allocation tables are as of the last trading day of the previous month.

The Global Industry Classification Standard was developed by and is the exclusive property and a service mark of MSCI, Inc. and Standard & Poor's.

The Index and Fund use the Industry Classification Benchmark ("ICB") classification system which is composed of 11 economic industries: basic materials, consumer discretionary, consumer staples, energy, financials, health care, industrials, real estate, technology, telecommunications and utilities.

This does not constitute a recommendation of any investment strategy or product for a particular investor. Investors should consult a financial professional before making any investment decisions.

Before investing, investors should carefully read the prospectus and consider the investment objectives, risks, charges and expenses. For this and more complete information about the fund, investors should ask their financial professionals for a prospectus or download one at invesco.com

Glossary

30 Day SEC Unsubsidized Yield reflects the 30-day yield if the investment adviser were not waiving all or part of its fee or reimbursing the fund for part of its expenses. Total return would have also been lower in the absence of these temporary reimbursements or waivers.

30 Day SEC Yield is based on a 30-day period and is computed by dividing the net investment income per share earned during the period by the maximum offering price per share on the last day of the period.

Weighted Harmonic Average Stock Price-to-Book-Value Ratio (P/B Ratio) is the ratio of a stock's market price to a company's net asset value.

Weighted Harmonic Average Stock Price-to-Earnings Ratio (P/E Ratio) is the share price divided by earnings per share. It is measured on a 12-month trailing basis.

Weighted Average Return on Equity is net income divided by net worth.

Weighted Market Capitalization is the sum of each underlying securities market value.
