

Invesco Tax-Aware Short Term SMA

Morningstar ID: FS0000G1BW | SEC ID: F0000157XL

Why invest in this strategy

1 Targeted active management

We seek to enhance returns through an active approach to security selection and sector allocation, and a passive approach to managing interest rate risk.

2 Tax optimization

We seek to efficiently deliver tax alpha through a process that uses proprietary technology to continuously monitor tax-loss harvesting opportunities.

3 Customization

We build portfolios that are customized to reflect clients' views, values, tax situation, and liquidity needs in a cost-efficient manner.

What this strategy does

The strategy invests in a blend of investment grade tax-exempt municipal bonds and taxable bonds, which may include corporate, treasury/agency, government MBS, TIPS, and taxable municipal bonds. It targets a weighted average portfolio duration of 2.5 years with individual bond maturities no greater than seven years and exhibits limited sensitivity to changes in interest rates.

Overview (as of 03/31/2024)

Composite AUM	\$97 mil
Strategy AUM	\$149 mil

Source: Invesco, Investortools. These portfolio statistics are subject to change. Ratings source: Standard & Poor's, Moody's or Fitch, as applicable. If securities are rated differently by the rating agencies, the higher rating is applied. Data as of 3/31/24.

1. Please see Disclosure Statement for benchmark index description.

2. The portfolio characteristics are based on a representative account for the strategy and are subject to change without notice.

3. Average credit quality (ACQ) is an internal measurement calculated by taking the highest rating of the three major rating agencies (S&P, Moody's & Fitch) at a security level. It is then changed into a numerical value, asset weighted and then calculated to be shown at the portfolio level in Moody's format. Non-rated securities are not included in the average quality calculation. Information on non-rated securities is provided in the Quality Distribution chart, if applicable. ACQ calculations may vary across the industry and should not be the only factor in analyzing a portfolio. Please review all information carefully before investing. Ratings are measured on a scale that generally ranges from AAA (highest) to D (lowest); ratings are subject to change without notice. If securities are rated differently by the rating agencies, the higher rating is applied. Not Rated indicates the debtor was not rated and should not be interpreted as indicating low quality.

The strategy assets under management displayed above reflects multiple composites. Please refer to the GIPS Presentation at the end of this report for additional information.

- For purposes of compliance with Global Investment Performance Standards (GIPS®), "Invesco Worldwide" refers collectively to all direct or indirect subsidiaries of Invesco Ltd. that provide discretionary investment advice with the exception of the following entities: Invesco Investment Management Ltd., Invesco Investment Advisers LLC, Invesco Asset Management Australia (Holdings) Ltd., Invesco Global Real Estate Asia Pacific, Inc., IRE (Cayman) Ltd., Invesco Senior Secured Management, Inc., Invesco Private Capital, Inc., and Invesco Capital Management LLC. Invesco Great Wall Fund Management Company Limited is compliant with GIPS but is not part of Invesco Worldwide.
- Invesco Worldwide claims compliance with the Global Investment Performance Standards (GIPS®) and has prepared and presented this report in compliance with the GIPS standards. Invesco Worldwide has been independently verified for the periods 1st January 2003 through 31st December 2022. The verification reports are available upon request. A firm that claims compliance with the GIPS standards must establish policies and procedures for complying with all the applicable requirements of the GIPS standards. Verification provides assurance on whether the firm's policies and procedures related to composite and pooled fund maintenance, as well as the calculation, presentation, and distribution of performance, have been designed in compliance with the GIPS standards and have been implemented on a firm-wide basis. Verification does not provide assurance on the accuracy of any specific performance report. GIPS® is a registered trademark of CFA Institute. CFA Institute does not endorse or promote this organization, nor does it warrant the accuracy or quality of the content contained herein.
- A complete list and description of Firm composites, limited distribution pooled funds, broad distribution pooled funds and performance results is available upon request. Additional information regarding policies for calculating and reporting returns is available upon request. All returns are expressed in U.S. dollars and are gross of nonreclaimable withholding tax, if applicable.
- The Invesco Tax-Aware Short Term SMA Composite (formerly named SNW Municipal/Taxable Blend Short Composite) includes every fully representative portfolio managed in the strategy. The composite includes portfolios that generally hold at least 50% but no more than 80% of assets in securities that are exempt from federal taxes. All portfolios included in the composite are actively managed. Portfolios are actively managed with tax efficient considerations with regard to any state and local income taxes. All holdings within the portfolios are investment grade and dollar denominated. Eligible securities include those in the municipal, U.S. Treasury, government-related, and corporate sectors of the investment-grade bond market. The weighted average duration of the portfolios included in the composite is between two and three years, and the weighted average credit rating of member portfolios is single A or above. The name of the Composite was changed from Blend Short on June 30, 2018. The composite is managed in comparison to, not duplication of the benchmark. The composite inception date is 3/31/2006. The composite was created in January 2012.
- The Composite gross-of-fee returns reflect the reinvestment of income and the impact of transaction costs, but do not include the deduction of investment advisory fees, distribution expenses or any other account expenses, such as custodial fees. Composite net-of-fee returns are calculated by deducting actual management fees from the underlying portfolios' gross returns. Annual fees for the Invesco Tax-Aware Short Term SMA product range up to 0.75% of the market value of the assets under management. The minimum account size is \$250,000. Actual fees may vary depending on, among other things, the vehicle type, applicable fee schedule and portfolio size.
- The Custom Benchmark is an unmanaged index that is a custom-weighted blend of 67% of the ICE Bank of America Merrill Lynch 1-5 Year U.S. Municipal Securities Index (a subset of the ICE Bank of America Merrill Lynch U.S. Municipal Securities Index including all securities with a remaining term to final maturity less than 5 years, and 33% of the ICE Bank of America Merrill Lynch 1-5 Year AAA-A U.S. Corporate & Government Index (a subset of the ICE Bank of America Merrill Lynch U.S. Corporate & Government Index including all securities with a remaining term to final maturity less than 5 years and rated AAA through A3, inclusive). The custom benchmark is calculated by weighting the respective index returns on a monthly basis. For comparison purposes the index is fully invested, which includes the reinvestment of income. The returns for the index do not include any transaction costs, management fees or other costs.
- The dispersion of annual returns is measured by the equal-weighted standard deviation of account returns included in the composite for the full year. For periods with five or fewer accounts included for the entire year, dispersion is not presented as it is not considered meaningful.
- The three-year annualized ex-post standard deviation measures the variability of the monthly returns of the composite and the benchmark over the preceding 36 months. The standard deviation is not presented where there is less than 36 months of performance history.

9. Prior to September 1, 2019, performance represents results achieved by the respective investment team while it was part of OppenheimerFunds, Inc. Invesco acquired Massachusetts Mutual Life Insurance Company's asset management affiliate OppenheimerFunds on May 24, 2019. Composite assets and returns prior to August 2019 represent results while it was part of OppenheimerFunds. OFI Global was GIPS verified by another firm through December 31, 2018. Effective December 31, 2019, the composite name changed from the SNW Municipal/Taxable Blend Short Composite to the Invesco Tax-Aware Short Term SMA Composite.

Past performance is not indicative of future results. As with any investment vehicle there is always the potential for gains as well as the possibility of losses.

Definitions

Beta (cash adjusted) is a measure of relative risk and the slope of regression.

Information Ratio measures the risk-adjusted returns of a financial asset or portfolio relative to a certain benchmark.

Sharpe Ratio is a risk-adjusted measure calculated using standard deviation and excess return to determine reward per unit of risk. A higher Sharpe ratio indicates better risk-adjusted performance.

Standard Deviation measures a fund's range of total returns and identifies the spread of a fund's short-term fluctuations.

Tracking Error is defined as the expected standard deviation of a portfolio's excess returns over the benchmark index return.
