To prepare for the closing and liquidation of each Fund, each Fund's portfolio managers may increase that Fund's assets held in cash and similar instruments in order to pay for Fund expenses and meet redemption requests. As a result, each Fund may deviate from its stated investment strategies and policies and may no longer be managed to meet its investment objective.

On or promptly after the Liquidation Date, each Fund will make a liquidating distribution to each remaining shareholder equal to the shareholder's proportionate interest in the net assets of the Fund, in complete redemption and cancellation of the Fund's shares held by the shareholder, and the Fund will be dissolved. If necessary, each Fund will declare and pay a dividend to distribute to each of its shareholders all of that Fund's remaining investment company taxable income, if any, and all of the Fund's net capital gain, if any (after reduction for any capital loss carry-forward) and any additional amounts necessary to avoid any excise tax. Alternatively, each Fund may, if eligible, treat some or all of such amounts distributed to each of its shareholders as being paid out as dividends as part of the liquidating distributions. Each Fund's liquidation may be a taxable event to its shareholders. Please consult your tax advisor about the potential tax consequences.

Proceeds from the liquidation of share balances in certain retirement plans or accounts held directly at Invesco (including IRA, Single/Solo 401(K), Profit Sharing Plan, 403(b)(7)) on the Liquidation Date will be used to purchase shares of Invesco Government Money Market Fund as of the Liquidation Date. These shareholders will receive notices with further important information in advance of the Liquidation Date.

Shares held through a broker-dealer or other financial intermediary, such as omnibus accounts, may be subject to the protocols of the financial intermediary.
