

Ali ZouitenDirector, Derivative Strategies

Ali Zouiten

Ali Zouiten is Director of Derivative Strategies for the Invesco Multi-Asset Strategies team, which provides customized, multi-asset investment strategies for insurance, institutional, and retail clients. In this role, he develops and manages structured solutions including asset allocation with managed volatility overlays, hedging solutions, derivative strategies, asset/liability, and capital management.

Mr. Zouiten joined Invesco in 2019. Prior to joining the firm, he led asset/liability management and investment for product development at HSBC Asset Management. Before moving to London, Mr. Zouiten worked at Baloise Group in Switzerland, where he led asset management solutions for life insurance and at AXA Hedging Services in Paris, where he managed the structuring team. Mr. Zouiten started his career as an interest rate and credit quant at Société Générale.

Mr. Zouiten earned a BS degree in financial engineering from ENSTA (based in Paris) and an MS in applied mathematics in the finance and insurance industry from Dauphine University.
