- Historical 12 month distribution rate (fee-based): 1.75%

Investors in fee-based accounts will not be assessed the deferred sales charge for eligible fee-based purchases and must purchase units with a fee-based CUSIP.

1. The historical 12 month distributions per unit and each historical 12 month distribution rate of the securities included in the trust are for illustrative purposes only and are not indicative of the trust's actual distributions or distribution rate. The historical 12 month distributions per unit amount is based upon the weighted average of the actual distributions paid by the securities included in the trust over the 12 months preceding the trust's deposit date, and is reduced to account for the effects of fees and expenses which will be incurred when investing in a trust. Each historical 12 month distribution rate is calculated by dividing the historical 12 month distributions amount by the trust's initial $10 public offering price per unit. There is no guarantee the issuers of the securities included in the trust will declare dividends or distributions in the future. Due to the negative economic impact across many industries caused by the recent COVID-19 outbreak, certain issuers of the securities included in the trust may elect to reduce the amount of, or cancel entirely, dividends and/or distributions paid in the future. As a result, the historical 12 month distributions per unit and each historical 12 month distribution rate will likely be higher, and in some cases significantly higher, than the actual distribution rate achieved by the trust. The distributions paid by the trust, as well as the corresponding rates, may be higher or lower than the figures shown due to certain factors that may include, but are not limited to, a change in the dividends or distributions paid by issuers, actual expenses incurred, currency fluctuations, the sale of trust securities to pay any deferred sales charges, trust fees and expenses, variations in the trust's per unit price, or with the call, maturity or the sale of securities in the trust. Distributions made by certain securities in the trust may include non-ordinary income.

### Objective

The Portfolio seeks above average capital appreciation. The Portfolio seeks to achieve its objective by investing in a portfolio of common stocks of companies derived from the S&P 500 Dividend Aristocrats Index. The S&P 500 Dividend Aristocrats Index consists of stocks of those companies in the S&P 500 Index that have followed a policy of consistently increasing dividends every year for at least 25 years.

### Portfolio composition (As of the business day before deposit date)

#### Consumer Discretionary

- Lowe's Companies, Inc.: LOW
- McDonald's Corporation: MCD
- Target Corporation: TGT

#### Consumer Staples

- Archer-Daniels-Midland Company: ADM
