There are risks involved with investing in ETFs including possible loss of money. Index-based ETFs are not actively managed. Actively managed ETFs do not necessarily seek to replicate the performance of a specified index. Both index-based and actively managed ETFs are subject to risk similar to stocks, including those related to short selling and margin maintenance. Ordinary brokerage commissions may apply. The funds are subject to certain other risks. Please see the current prospectus for more information regarding the risk associated with an investment in the funds.

Investments focused in a particular industry or sector are subject to greater risk, and are more greatly impacted by market volatility than more diversified investments.

This does not constitute a recommendation of any investment strategy or product for a particular investor. Investors should consult a financial advisor/financial consultant before making any investment decisions.
