

Invesco High Yield Municipal Fund

A: ACTHX | R6: ACTSX | Y: ACTDX

Why invest in this fund

- 1 Rigorous credit research.**
We assign forward-looking internal ratings to every holding and conduct site visits on all high yield and non-rated deals.
- 2 Experience that matters.**
We use our knowledge and relationships across the \$4 trillion municipal market to uncover and capitalize on relative value opportunities.
- 3 Maximize income potential.**
We endeavor to provide competitive monthly distribution yields with our time-tested risk aware investment process.

What this fund does

The fund seeks to provide enhanced levels of tax-free income by purchasing high yield and investment grade municipal bonds that are exempt from federal personal income taxes. As the second-largest high yield municipal bond manager, we use our size and deep experience to provide investors consistent access to bond issues.

Class A shares at NAV (September 30, 2012 – September 30, 2022)

■ Invesco High Yield Municipal Fund Class A at NAV: \$13,368

Overall Morningstar rating

Class A shares as of September 30, 2022

Ratings are based on a risk-adjusted return measure that accounts for variation in a fund's monthly performance, placing more emphasis on downward variations and rewarding consistent performance.

Class A shares received 4 for the overall, 3 for the three years, 4 for the five years and 5 for the 10 years. The fund was rated among 190, 190, 167 and 104 funds within the High Yield Muni Category for the overall period, three, five and 10 years, respectively.

Expense ratios	% net	% total
Class A	0.98	0.98
Class R6	0.68	0.68
Class Y	0.73	0.73

Per the current prospectus.

Performance quoted is past performance and cannot guarantee comparable future results; current performance may be lower or higher. Visit [invesco.com](https://www.invesco.com) for the most recent month-end performance. Performance figures reflect reinvested distributions and changes in net asset value (NAV). Investment return and principal value will vary so that you may have a gain or a loss when you sell shares. Returns less than one year are cumulative; all others are annualized. Performance shown prior to the inception date of Class R6 shares is that of Class A shares and includes the 12b-1 fees applicable to Class A shares. Index sources: Invesco, RIMES Technologies Corp. Had fees not been waived and/or expenses reimbursed in the past, returns would have been lower. Performance shown at NAV does not include the applicable front-end sales charge, which would have reduced the performance.

Class Y and R6 shares have no sales charge; therefore, performance is at NAV. Class Y shares are available only to certain investors. Class R6 shares are closed to most investors. Please see the prospectus for more details.

Asset allocation/diversification does not guarantee a profit or eliminate the risk of loss.

Income may be subject to state and local taxes. There is no guarantee that the fund's income will be exempt from federal income taxes, including the alternative minimum tax.

Custom Invesco High Yield Municipal Index was created by Invesco to serve as a benchmark for Invesco High Yield Municipal Fund, comprises 80% weight in bonds in the S&P Municipal Bond Index that are not rated or are rated below investment grade and a 20% weight in bonds that are rated investment grade by Standard & Poor's, Moody's and/or Fitch. An investment cannot be made directly in an index.

The Global Industry Classification Standard was developed by and is the exclusive property and service mark of MSCI, Inc. and Standard & Poor's.

About Risks

All or a portion of the fund's otherwise tax-exempt income may be subject to the federal alternative minimum tax.

An issuer may be unable to meet interest and/or principal payments, thereby causing its instruments to decrease in value and lowering the issuer's credit rating.

Derivatives may be more volatile and less liquid than traditional investments and are subject to market, interest rate, credit, leverage, counterparty, and management risks. An investment in a derivative could lose more than the cash amount invested.

Interest rate risk refers to the risk that bond prices generally fall as interest rates rise and vice versa.

Junk bonds have greater risk of default or price changes due to changes in the issuer's credit quality. Junk bond values fluctuate more than high quality bonds and can decline significantly over a short time.

Securities which are in the medium- and lower-grade categories generally offer higher yields than are offered by higher-grade securities of similar maturity, but they also generally involve more volatility and greater risks.

Municipal securities have the risk that legislative or economic conditions could affect an issuer's ability to make principal and/or interest payments.

The fund is subject to certain other risks. Please see the current prospectus for more information regarding the risks associated with an investment in the fund.

This does not constitute a recommendation of any investment strategy or product for a particular investor. Investors should consult a financial professional before making any investment decisions.

Note: Not all products available at all firms. Financial professionals, please contact your home office.

Ratings source: Standard & Poor's, Moody's or Fitch, as applicable. A credit rating is an assessment provided by a nationally recognized statistical rating organization (NRSRO) of the creditworthiness of an issuer with respect to debt obligations, including specific securities, money market instruments or other debts. Ratings are measured on a scale that generally ranges from AAA (highest) to D (lowest); ratings are subject to change without notice. If securities are rated differently by the rating agencies, the higher rating is applied. Not Rated indicates the debtor was not rated and should not be interpreted as indicating low quality. A negative in Cash indicates fund activity that has accrued or is pending settlement. Pre-Refunded/Escrowed to Maturity (Prerefunded/ETM) bonds are issues backed by an escrow account, invested in US Treasuries, which is used to pay bondholders. Other includes bonds rated below single B and bonds currently not paying a coupon. For more information on the rating methodology, please visit www.standardandpoors.com and select 'Understanding Ratings' under Rating Resources on the homepage; www.moodys.com and select 'Rating Methodologies' under Research and Ratings on the homepage; www.fitchratings.com and select 'Ratings Definitions' on the homepage. The fund holdings are organized according to the Global Industry Classification Standard, which was developed by and is the exclusive property and service mark of MSCI Inc. and Standard & Poor's.

30 Day SEC Unsubsidized Yield reflects the 30-day yield if the investment adviser were not waiving all or part of its fee or reimbursing the fund for part of its expenses. Total return would have also been lower in the absence of these temporary reimbursements or waivers.

30 Day SEC Yield is based on a 30-day period and is computed by dividing the net investment income per share earned during the period by the maximum offering price per share on the last day of the period.

Option adjusted duration is a measure, as estimated by the fund's portfolio managers, of a bond fund's price sensitivity to changes in interest rates. It takes into account mortgage prepayments, puts, adjustable coupons and potential call dates.

Taxable equivalent yield quoted above is based on the 2022 top federal tax rate of 40.8%, including the 3.8% tax on earned income under the Patient Protection and Affordable Care Act, as applicable. Had fees not been waived and/or expenses reimbursed, the yield would have been lower.

Weighted average maturity (WAM) is a measure, as estimated by the fund's portfolio managers, of the length of time the average security in a bond fund will mature or be redeemed by its issuer. It takes into account mortgage prepayments, puts, adjustable coupons and potential call dates.

It may not be copied or distributed and is not warranted to be accurate, complete or timely. Neither Morningstar nor its content providers are responsible for any damages or losses arising from any use of this information.

Past performance is no guarantee of future results. Open-end mutual funds and exchange-traded funds are considered a single population for comparison purposes. For factsheets that display Morningstar Star Ratings; Ratings are calculated for funds with at least a three year history. The overall rating is derived from a weighted average of three-, five- and 10- year rating metrics, as applicable, excluding sales charges and including fees and expenses. Had fees not been waived and/or expenses reimbursed currently or in the past, the Morningstar rating would have been lower. Ratings are as of the most recent quarter end and are subject to change every month. The top 10% of fund in a category receive five stars, the next 22.5% four stars, the next 35% three stars, the next 22.5% two stars and the bottom 10% one star. Ratings for other share classes may differ due to different performance characteristics.
